Trade-marks Journal

Vol. 63 No. 3227

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Advertised applications

Application Number 1,538,950 **Filing Date** 2011-08-09
Language of Application English

APPLICANT AND REPRESENTATIVE FOR SERVICE

Applicant
2155091 Ontario Ltd., 2124 King Road, King
City, ONTARIO L7B 1L1

Representative for Service
SMART & BIGGAR
1000 RUE DE LA GAUCHETIERE OUEST,
BUREAU 3300, MONTREAL, QUEBEC,
H3B4W5

TRADEMARK

ROCKFORD'S BAR & GRILL

SERVICES

Bar and restaurant services.

CLAIMS

Used in CANADA since April 2008 on services.

Application Number 1,590,270 **Filing Date** 2012-08-15
Language of Application French

APPLICANT AND REPRESENTATIVE FOR SERVICE

Applicant
David Trudeau, 1751 rue Coulombe #400,
Ste-Julie, QUÉBEC J3E 0C2

TRADEMARK

Daddy Cool

GOODS

Class 18

(1) Document suitcases; backpacks; backpacks, book bags, sports bags, fanny packs, wallets, and handbags; all-purpose sports bags; carrying bags; travel bags; garments for pets.

Class 25

(2) Business clothing; men's and women's swimwear; golf wear; clothing for gymnastics; beachwear; casual clothing; exercise wear; outdoor winter clothing; sports clothing.

SERVICES

Class 35

(1) Dissemination of online advertising for others on electronic communications networks; dissemination of advertising for others via an online communications network on the Internet; dissemination of advertising for others via the Internet; advertising flyer distribution for others; provision of space on websites for advertising goods and services; newspaper advertising for others; advertising the goods and services of others in electronic media, specifically the Internet; online advertising for others via a computer communications network; online advertising for others on a computer network; advertising on the Internet for others.

Class 41

(2) Entertainment featuring live dance and live music; entertainment in the form of dance performances; dance instruction; dance schools; organization and holding of dance festivals; sale of tickets for performances.

CLAIMS

Used in CANADA since September 04, 2008 on goods and on services.

Application Number 1,596,376 **Filing Date** 2012-09-28
Language of Application English

APPLICANT AND REPRESENTATIVE FOR SERVICE

Applicant
Mizuno Corporation, 1-23, Kitahama 4-chome,
Chuo-ku, Osaka-shi, Osaka, 541-8538, JAPAN

Representative for Service
NORTON ROSE FULBRIGHT CANADA LLP/

TRADEMARK

EDF

GOODS

Heating oil, industrial grease, industrial lubricants for use in the industries of hydroelectric energy, wind energy, nuclear energy, solar energy, geothermal energy, fossil energy, namely natural gas, coal, petroleum; biomass fuels; organic fuels, namely wood, alcohols, vegetable oils; agricultural fuels; fuels made from organic waste and residue; bituminous coal; charcoal fuels; wood charcoal for fuel; natural gas; lighting gas; oil gas in a gaseous or liquified state; fuel gas; siderurgical gas; fuel oil, crude or refined oil; firewood; automatic vending machines and mechanisms for coin-operated apparatus; electric apparatus and instruments for measuring, monitoring, and checking power generation apparatus, namely electrical transformers, electrical switches, circuit breakers, fuses, namely fuses for electrical power supply panels; electric apparatus and instruments for measuring and controlling domestic or industrial electrical energy consumption, namely thermostats, electricity meters, software for reading domestic or industrial electrical energy consumption; electric relays; electric switching apparatus, namely high-frequency switches; electrical converters; electrical collectors; high-voltage power lines; medium-voltage power lines; low-voltage power lines; electrical power transformers; electrical fuses; electrical distribution cabinets, consoles, and boards; electrical control panels; electrical connection panels; electrical accumulators; power lines and cables; electric wires; material for conducting electricity, namely electric wires and electric cables; sheaths for electric cables; fibre optic cables; coaxial cables; electrical lines; electricity conduits; circuit breakers; electrical power switches; apparatus for regulating and controlling electric current, namely circuit breakers; electrical couplings for electric motors, for electric transformers; connections for electric lines; wire connectors; electrical terminals; electrical junction, splicing, and connection boxes; electricity meters; gas meters; electronic controllers for furnaces; heat control instruments, namely thermostats, rheostats, sensors; electricity indicators, electrical loss indicators; temperature indicators; thermostats; light dimmers; thermometers for non-medical use; light regulators; all-purpose batteries, automotive batteries, electric vehicle batteries; electric resistors, namely rheostats; thermoionic lamps and bulbs; rechargeable batteries, namely all-purpose batteries, automotive batteries, electric vehicle batteries ; electrical chargers that function on solar energy, namely automotive battery chargers, electric vehicle battery chargers; electric vehicle charging terminals; electrical batteries; solar batteries; photovoltaic cells; particle accelerators, namely computer software and equipment for the sterilization, ionization, and treatment of power generation materials; photovoltaic solar panels with photovoltaic modules; photovoltaic thermal panels for generating electricity; ammeters; anemometers; barometers; dynamometers; galvanometers; gasometers; ohmmeters; voltmeters;

lightning arresters; lightning rods; transmission towers; analog computers, digital computers, optical computers, hybrid computers intended for reliability tests and simulations in energy transport and distribution networks; electric stand-by managers, namely electronic apparatus for controlling the supply of energy to electric apparatus, namely uninterruptible power supplies; smoke detectors; fire-extinguishing apparatus; telecommunications and electronic signal transmitters, namely modems and electronic chips; computer monitors, video monitors; clothing for protection against accidents, radiation, and fire; safety devices, namely emergency warning lights; life-saving devices, namely life jackets; non-medical devices for protection against X-rays and nuclear radiation, namely protective screens; protective helmets, namely construction helmets; protective eyeglasses; protective masks; breathing apparatus and masks other than those for artificial respiration, namely cardiopulmonary resuscitation masks; disposable dust masks; gloves for protection against accidents, radiation, and fire; footwear for protection against accidents, radiation, and fire; alarms, namely personal security alarms, fire alarms, burglar alarms; fire alarms; natural disaster alarms; industrial accident alarms; apparatus for radioactivity detection; Geiger counters; instruments and machines for materials testing in the field of energy, namely inspection apparatus for inspecting the continuity of electrical circuits; security and automation apparatus for individual buildings and houses, namely central anti-intrusion alarm stations with a camera, radio; electric and electronic apparatus for detecting danger, namely fire alarms; computer software for the design, management , servicing, simulation, or testing of energy transport and distribution networks; instructional manuals, guides and brochures, in electronic form, related to energy management.

SERVICES

Advertising the goods and services of others by means of an electronic billboard; advertising the goods and services of others; business management; business administration; office functions, namely word processing and bookkeeping; information searches in computer files for others; administrative management of subsidiaries; business organization and management consulting for subsidiary companies; administration, strategy, organization, and management consulting in regard to businesses and personnel; consulting related to business strategy and management; coaching, namely provision of administrative and commercial know-how; organization and holding of trade shows, conventions, and exhibitions for commercial and advertising purposes in the field of energy; radio and television advertising, namely production and dissemination of advertisements broadcast on television and the radio; advertising mail, namely distribution of catalogues and pamphlets by mail; promotion of the sale of goods and services through the distribution of advertising materials and promotional contests; promotion of the sale of goods and services through a customer loyalty program; development and design of advertising campaigns; advertising sponsorship for the goods and services of others; promotional and commercial sponsoring and patronage, namely charity fundraising and sponsorship of sporting events; research of advertising and financial sponsors; administrative management of exhibition grounds; start-up assistance for new businesses and associations; public relations services; sales promotion for others; promotion, for the benefit of others, of products functioning by means of all kinds of energy; business management consulting and business organization and management consulting in the fields of ecology, urban planning, the reduction of polluting emissions and waste; business expertise in the fields of ecology, urban planning, the reduction of polluting emissions and waste; distribution of tracts, flyers, printer matter related to ecology and urban planning; cost analysis related to the consumption of energy and raw materials, greenhouse or non-greenhouse gas emissions, transport, the production of polluting emissions and waste, environmental impact, and assistance with budgetary decisions related to the consumption of energy and raw materials, greenhouse or non-greenhouse gas emissions, transport , the production of polluting emissions and waste, environmental impact; compilation and systematization of statistics in the field of energy; production of energy consumption statements; billing services; management and processing of electronic invoices; price comparison services; provision of business consulting and information for consumers with regard to energy; management of client accounts containing information related to prepaid cards, gift cards, and credit cards; computer database management; provision of administrative and commercial consulting and information to businesses in the field of energy; publication of advertising copy; commercial consulting and information in the fields of environmental protection, carbon emissions, the preservation of natural resources, renewable energy, new energies, and sustainable development; business information and consulting related to the production, supply, consumption of gas; commercial estimates of energy consumption; telephone consultation related to business management; business consulting for the purchase and selection of electrical apparatus, namely electrical control systems for lighting, electrical control systems for electric device heating and air conditioning systems, selected according to criteria related to the technical qualities, cost, and energy consumption management thereof; business analysis services, namely access to a system for preselecting products for others and providing business advice on the selection of energy, electrical, and industrial equipment likely to met current standards and regulations; business consulting and commercial information for the selection of professionals to carry out repairs in the field of energy; business consulting and information for the selection of installers of energy equipment, namely gas burners, hot water boilers, heating boilers, electronic controllers for boilers; business consulting and information related to insulation and housing; business consulting related to tax deductions and benefits and tax savings and credits that promote energy conservation and sustainable development for optimizing the production and distribution of energy; wholesale and retail of electricity, fuels, coal, fuel oil, firewood, gas, petroleum, photovoltaic panels; buying and selling on wholesale gas and electricity markets; purchasing of photovoltaic electricity; purchasing of electricity originating from installations for renewable energy use; auctioneering of gas and electricity; business appraisals; commercial estimates regarding gas and electricity; import-export agencies; procurement of gas and electricity for others; sale of turnkey photovoltaic facilities; sale of turnkey energy production and distribution plants; promotion, for others, of vehicles functioning on alternative energy sources; financial securities brokerage services; financial analysis and consulting; insurance; monetary affairs, namely foreign exchange transactions, acquisition and assignment of claims; real estate affairs, namely financial estimates and assessments of real property, real estate brokerage, real estate agencies, consulting related to real estate, real estate investments, real estate management, and financing of building leases with the option to purchase; capital build-up or investment; estimation of construction costs; estimation of home improvement costs; investment consulting; financial and budgetary estimates for energy saving measures; information and data related to the stock market; financial equity participation, namely investment in businesses through the purchase of shares or other financial securities in the financial, commercial, industrial, personal property, and real property sectors; build-up and investment of capital; management of financial and stock market portfolios, of personal property and real property portfolios; securities investment agencies, investment of funds for others, financial investment in the field of mutual funds; mutual fund brokerage; financial investment of private equity funds for others; financial management of shares and stocks held in third party companies; financial engineering; stock market transactions; brokerage in the field of energy raw materials; market fluctuation monitoring services in the field of raw materials; stock brokerage in the energy sector; brokerage of raw materials, namely gas, coal, and hydrocarbons; consulting services on obtaining carbon credits, namely for obtaining credits related to a reduction of greenhouse gas emissions; insurance services in the field of energy activities and intended for businesses and individuals; insurance services related to breakdown repairs of collective and individual heating, electricity, water, solar, gas, fuel, refrigeration installations; insurance contracts covering electrical installations and electrical materials; individual insurance contracts covering the risk of non-payment of electrical and gas energy bills; insurance contracts covering electrical and plumbing breakdown repairs; financial consulting related to fees available in the field of energy consumption and management; financial studies and financial consulting to improve, develop, and renovate energy installations, namely electric and gas installations; financial information services in the field of energy; financial information and financial consulting related to energy consumption management; financial consulting for the purchase and selection of electrical apparatus chosen according to criteria related to technical qualities, cost, and energy consumption management; financial analysis for product pre-selection for others and financial consulting in the choice of electrical and industrial equipment likely to meet current standards and regulations; financial information and consulting on the cost and operation of electrical apparatus; financial information and financial consulting related to energy prices; financial loans related to the development and improvement of energy installations; financing services; financial loans for the acquisition of electric installations, heating installations, or installations operating on all types of energy; financing of energy-saving home renovations; loans for the construction of new energy-saving and environmentally friendly homes; financial consulting related to tax deductions and benefits and tax savings and credits promoting energy savings and sustainable development; financial estimates to improve the energy, heating, and environmental performance of homes and housing stock; property management; real estate rental management; financial sponsorship, namely financial sponsorship of sporting events and competitions, financial sponsorship of artistic events, exhibitions, and cultural or educational events ; financial sponsorship searches; financial assistance in the creation of businesses and associations; philanthropic organization offering monetary donations; demolition services; installation, maintenance, and repair of machines and apparatus, namely electric generators, electrical connectors for current converters, for energy distribution; maintenance of electrical facilities, lighting apparatus, heating apparatus, air conditioning apparatus, electrical apparatus, photovoltaic panels, solar panels, wind turbines, boilers, furnaces, burners, cooking, refrigeration, ventilation, air conditioning apparatus, water distribution and sanitary installations; installation of electrical systems; electrical heating appliance installation; electrical lighting apparatus installation; installation and repair of lighting apparatus, heating apparatus, air conditioning apparatus, electric apparatus, photovoltaic panels, solar panels, wind turbines, boilers, furnaces, burners, cooking, refrigeration, ventilation, air conditioning apparatus, water distribution and sanitary installations; installation, maintenance and repair of smart systems, namely security systems, surveillance systems, and lighting systems for buildings; industrial work, namely construction of factories in the field of energy, construction of industrial sites in the field of energy, energy generation and distribution facilities; construction, maintenance, and repair of thermal facilities, electrical facilities, nuclear power plants, hydroelectric plants, hydraulic plants, dams, wind farms, oil pipelines, gas pipelines, gas transport pipes, power lines, oil facilities, underwater turbine farms, photovoltaic parks, tidal power plants, geothermal power plants, and biomass power plants; technical consulting and information related to the installation, maintenance, and repair of power generation equipment and facilities; construction, maintenance, and repair of electrical power transport and distribution lines; installation and moving of electricity meters and gas meters; construction, maintenance, and repair of pipelines for the transport of gas, fluids, and solids; technical installation, maintenance, and repair of computers and computer peripherals; installation of acoustical insulation and glass wool insulation; construction, maintenance, and repair of underwater turbine and ocean wave installations, pipelines, conduits for energy transport; information related to construction, maintenance, and repair in the fields of renewable energy, sustainable development, environmental protection, natural resource conservation, and the fight against climate change; installation, maintenance, rehabilitation, decontamination, disinfestation, disinfection, destruction, and renovation of industrial works, namely plants, industrial sites; installation, maintenance, rehabilitation, decontamination, disinfestation, disinfection, destruction, and renovation of facilities for energy and electricity generation, nuclear power plants, nuclear reactors, thermal power plants, hydroelectric power plants, hydraulic plants, dams, wind farms, oil pipelines, gas pipelines, gas transport pipes, power lines, petroleum facilities, photovoltaic parks, tidal power plants, geothermal power plants, and biomass power plants; maintenance of power generation facilities, nuclear power plants, nuclear reactors, thermal power plants, hydroelectric power plants, hydraulic plants, dams, wind farms, oil pipelines, gas pipelines, gas transport pipes, power lines, petroleum facilities, photovoltaic parks, tidal power plants, geothermal power plants, and biomass power plants; construction of wastewater treatment and/or purification facilities; construction, installation, maintenance, repair, and servicing of plants and centres for the storage, treatment, reprocessing, and recycling of fuels and waste; supervision, management of the installation, maintenance, servicing, and repair of apparatus for the generation, provision, and distribution of energy, namely electric generators and electrical connectors for current converters; installation, servicing, and repair of all systems for the protection and security of property and individuals; maintenance, cleaning, and repair of electric vehicles and electric vehicle recharging terminals; roadside assistance; construction consulting; consulting for the construction of energy and electricity generation facilities, nuclear power plants, power plants, thermal power plants, hydroelectric power plants, hydraulic plants, dams, wind farms, oil pipelines, power lines, petroleum facilities, underwater turbine farms, photovoltaic parks, tidal power plants, geothermal power plants, and biomass power plants; transport of goods by boat; transport of goods by truck, transport of goods by train; transport of goods by air; information related to transportation; packaging and storage of goods; transport, distribution, and supply of energy, electricity, gas, hydrocarbons, heating, water, nuclear power, thermal power, wind power, hydraulic power, hydroelectric power, underwater turbine power, petroleum, bioenergy, renewable energies, biomass energy, geothermal energy, solar energy; collection services by air, land, or water, warehousing and storage of fuels, ores, nuclear materials, and nuclear waste; information and consulting related to the transport and supply of electrical energy; distribution, namely delivery of non-advertising printed matter related to energy , its transport, distribution, and supply, environmental protection, new energies, natural resource and biodiversity conservation, sustainable development; technical information and consulting about installations for the transport, supply of energy, namely electrical, nuclear, wind, solar, photovoltaic, thermal, hydraulic, underwater turbine, geothermal, hydroelectric energy, petroleum, bioenergy, renewable energies, biomass energy, solar energy, gas, steam, and water energy; production of energy, electricity, gas, heating, nuclear power, thermal power, wind power, hydraulic power, hydroelectric power, underwater turbine power, petroleum, bioenergy, renewable energy, biomass energy, geothermal energy, solar energy; air deodorization; air purification; air freshening, wastewater purification; treatment of materials, namely recycling of paper, textiles, glass, and plastic, hazardous materials decontamination, hazardous waste management, waste management services, sorting of refuse, treatment and processing of fuels for power generation; information related to the treatment of materials in the energy sector; recycling of waste; information related to waste treatment; hazardous materials decontamination; waste management services, namely processing; sorting of waste and raw materials for recovery; treatment and processing of fuels for power generation; rental of photovoltaic solar installations and solar collectors, electrical installations, wind installations, and underwater turbine installations; maintenance and renovation of nuclear facilities; fuel sorting services; decontamination, cleaning, pollution control, sanitation, maintenance, and renovation of nuclear facilities, energy and electricity generation facilities, equipment and apparatus in the field of power generation; professional consultations related to the generation of energy, electricity, gas, heating, nuclear power, thermal power, wind power, hydraulic power, hydroelectric power, underwater turbine power, petroleum, bioenergy, renewable energy, biomass energy, geothermal energy, solar energy; technical information and consulting about facilities for the generation of energy, electricity, gas, heating, nuclear power, thermal power, wind power, hydraulic power, hydroelectric power, underwater turbine power, petroleum, bioenergy, renewable energy, biomass energy, geothermal energy, solar energy; technical consulting and expertise, namely engineering work related to air conditioning, heating, and lighting; consulting and technical expertise in the field of the production of energy, namely electrical, nuclear, wind turbine, solar, photovoltaic, thermal, hydraulic, geothermal, underwater turbine, hydroelectric, petroleum, bioenergy, renewable energies, biomass energy, solar energy, gas; technical project studies; research and development of new products for the benefit of others; development, installation, updating, or rental of computer software; computer programming; chemical analysis; oil exploration analysis; programming and maintenance of home automation installations as well as programmable controllers for construction; drafting of construction plans, namely architectural plans ; architectural services; architectural consulting for environmental protection, new energy development, natural resource preservation, implementation of sustainable development and urban planning projects; engineering services in the field of electrical energy generation and transport; mechanical engineering; chemical engineering; nuclear engineering; research and development in the field of electrical engineering, generation of electrical energy, nuclear power, wind power, solar power, hydraulic power, geothermal power, thermal power, climatic power, biomass power, renewable energies; technical consulting and technical expertise in the field of the generation of electrical energy, nuclear power, wind power, solar power, hydraulic power, geothermal power, thermal power, renewable energies; expert energy efficiency consulting services; engineering services to better manage the production, storage, and consumption of energy; research and development services on the environmental impact of power generation installations, engineering services for assessing electricity needs and availabilities and for adapting tools to electricity distribution; engineering services for the design and construction of new energy generation and distribution facilities; technical consulting related to energy savings; research in the field of environmental protection; technical studies for the evaluation and optimization of the energy performance of buildings; energy auditing services; technical consulting and advisory services regarding environmental protection and renewable energy development; technical studies and research related to waste treatment, waste recycling; technical studies and research related to materials treatment; scientific and technological project management and laboratory work in the fields of electricity, renewable energies, sustainable development, ecology, urban planning, environmental protection, the reduction of polluting emissions and waste, natural resource conservation, and the fight against climate change; studies, research, and expertise rendered by engineers in the fields of energy, the environment, natural resources, sustainable development, and urban planning; technical services involving the remote reading of energy consumption meters; technical assessments and estimates related to energy consumption; technical consulting, technical information related to heating; technical consulting and information related to energy consumption management; technical consulting provided via telephone by engineers for the use of electric devices and installations; technical consulting related to the purchase and selection of electrical apparatus chosen according to criteria related to the technical qualities, price, and energy consumption management thereof; technical analyses, studies, and diagnostics rendered by engineers for the installation of apparatus for the production, supply, and/or distribution of energy, gas, heating, and water; research and development services in the field of thermal insulation and of solar and weather protection for homes; technical consulting and information related to thermal insulation and to solar and weather protection for homes; technical consulting and information for the evaluation and modification of electricity and/or gas meter power; placement and recruitment of personnel in the field of construction; technical consulting and information for the selection of professionals to carry out repairs; technical consulting and information for the selection of energy equipment installers; technical consulting and information related to housing insulation; diagnostic services related to the energy performance of real properties; energy, thermal, and environmental analysis of housing and housing stock; technical expertise, namely assistance with decision making through the research of technical facts, in relation to technology transfer, namely formal transfer, to the industry, of discoveries resulting from academic or private research in order to market these in the form of new products/services; transfer of technical know-how, namely training of personnel in the field of electrical energy generation and transport; technical consulting and technical assistance in engineering for technology transfer, namely formal transfer, to the industry, of discoveries resulting from academic or private research in order to market these in the form of new products/services, and the transfer of technical know-how, namely training of personnel in the field of electrical energy generation and transport; quality assurance and security services in the field of electric installations; materials testing in the field of energy; technical trials related to electricity, heating, home automation; technical consulting, namely providing assistance for others to ensure that their personnel, products, materials, industrial installations, and facilities comply with current standards and regulations in the field of energy; audits regarding security and compliance with current regulations in all energy and electricity generation facilities; technical assistance, namely testing, analysis, and evaluation of products and services for the purpose of issuing compliance certificates and certification in the field of energy; quality control services for power generation apparatus, namely photovoltaic modules, particle accelerators, namely computer software and equipment for the sterilization, ionization, and treatment of materials and the generation of energy, photovoltaic solar panels with photovoltaic modules, photovoltaic thermal panels for the generation of electricity, ammeters, anemometers, barometers, dynamometers, galvanometers, gasometers, ohmmeters, voltmeters, lightning arresters, lightning rods, transmission towers; technical inspection and expertise regarding energy installations, namely heating, air conditioning, cooling system installations, fluid network installations; research and development services in the field of electric transport, namely electric batteries, electric terminals, electric vehicles, streetcars, trolley buses, electric buses, electric boats; security guard services for the protection of goods and individuals; information and consulting related to security; security inspection services for construction projects, power facilities, and nuclear facilities; rental of equipment for the protection of goods and individuals; security and surveillance of industrial works, energy and electricity generation facilities, nuclear power plants, thermal power plants, hydroelectric power plants, hydraulic plants, dams, wind farms, oil pipelines, gas pipelines, power lines, petroleum facilities, photovoltaic parks, underwater turbine farms, tidal power plants, geothermal power plants, and biomass power plants; surveillance of electricity, heat, and energy distribution networks; consulting on and checking of electric and electronic apparatus for measuring, checking, monitoring, detecting, or locating danger, namely fire or intrusion; prevention of industrial-source safety risks, namely predictive human reliability analysis and assessment in the event of accidents in industrial settings; security and monitoring of senior citizens, sick individuals in or outside of their homes; video surveillance services, anti-intrusion alarm monitoring, night-time surveillance agencies; information services, for local communities or the general public, related to the field of social action intended to help the most vulnerable individuals or groups lead better lives, acquire or maintain their independence, and adapt to their social surroundings, related to public and civil security; electrical facility security control; legal services; legal analysis; legal aid services in regard to business creation; legal expertise related to technology transfer; legal partnership research; technology transfer contract writing, namely legal services; legal advice services related to tax deductions and benefits and tax savings and credits that promote energy savings and sustainable development; mediation; social mediation to resolve energy insecurity situations; generation and transport of energy and electricity products, namely thermal power, hydraulic power, hydroelectric power, underwater turbine power, wind power, solar power, geothermal power, electrical power, nuclear power. .

CLAIMS

Used in CANADA since at least as early as 2008 on goods and on services. Priority Filing Date: FRANCE April 20, 2012, Application No: 123 914 869 in association with the same kind of goods and in association with the same kind of services. Used in FRANCE on goods and on services. Registered in or for FRANCE on April 20, 2012 under No. 123 914 869 on goods and on services

Application Number 1,607,549 **Filing Date** 2012-12-20

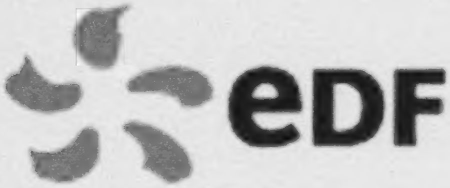
TRADEMARK



Index Headings
EDF

Image Description (Vienna)
- Other men
- Men stylized
- Other flowers, blossoms -- Notes: (a) Including flowers or blossoms of trees (cherry trees, peach trees, apple trees) and of bushes. -- (b) Including flowers of protea and strelitzia.
- Stylized flowers
- One flower
- Red, pink, orange
- Blue

Colour Claim
Colour is claimed as a feature of the trade-mark. The trade-mark comprises a propeller with red blades and the word EDF in blue

GOODS

Heating oil, industrial grease, industrial lubricants for use in the industries of hydroelectric energy, wind energy, nuclear energy, solar energy, geothermal energy, fossil energy, namely natural gas, coal, petroleum; biomass fuels; organic fuels, namely wood, alcohols, vegetable oils; agricultural fuels; fuels made from organic waste and residue; bituminous coal; charcoal fuels; wood charcoal for fuel; natural gas; lighting gas; oil gas in a gaseous or liquified state; fuel gas; siderurgical gas; fuel oil, crude or refined oil; firewood; automatic vending machines and mechanisms for coin-operated apparatus; electric apparatus and instruments for measuring, monitoring, and checking power generation apparatus, namely electrical transformers, electrical switches, circuit breakers, fuses, namely fuses for electrical power supply panels; electric apparatus and instruments for measuring and controlling domestic or industrial electrical energy consumption, namely thermostats, electricity meters, software for reading domestic or industrial electrical energy consumption; electric relays; electric switching apparatus, namely high-frequency switches; electrical converters; electrical collectors; high-voltage power lines; medium-voltage power lines; low-voltage power lines; electrical power transformers; electrical fuses; electrical distribution cabinets, consoles, and boards; electrical control panels; electrical connection panels; electrical accumulators; power lines and cables; electric wires; material for conducting electricity, namely electric wires and electric cables; sheaths for electric cables; fibre optic cables; coaxial cables; electrical lines; electricity conduits; circuit breakers; electrical power switches; apparatus for regulating and controlling electric current, namely circuit breakers; electrical couplings for electric motors, for electric transformers; connections for electric lines; wire connectors; electrical terminals; electrical junction, splicing, and connection boxes; electricity meters; gas meters; electronic controllers for furnaces; heat control instruments, namely thermostats, rheostats, sensors; electricity indicators, electrical loss indicators; temperature indicators; thermostats; light dimmers; thermometers for non-medical use; light regulators; all-purpose batteries, automotive batteries, electric vehicle batteries; electric resistors, namely rheostats; thermoionic lamps and bulbs; rechargeable batteries, namely all-purpose batteries, automotive batteries, electric vehicle batteries ; electrical chargers that function on solar energy, namely automotive battery chargers, electric vehicle battery chargers; electric vehicle charging terminals; electrical batteries; solar batteries; photovoltaic cells; particle accelerators, namely computer software and equipment for the sterilization, ionization, and treatment of power generation materials; photovoltaic solar panels with photovoltaic modules; photovoltaic thermal panels for generating electricity; ammeters; anemometers; barometers; dynamometers; galvanometers; gasometers; ohmmeters; voltmeters; lightning arresters; lightning rods; transmission towers; analog computers, digital computers, optical computers, hybrid computers intended for reliability tests and simulations in energy transport and distribution networks; electric stand-by managers, namely electronic apparatus for controlling the supply of energy to electric apparatus, namely uninterruptible power supplies; smoke detectors; fire-extinguishing apparatus; telecommunications and electronic signal transmitters, namely modems and electronic chips; computer monitors, video monitors; clothing for protection against accidents, radiation, and fire; safety devices, namely emergency warning lights; life-saving devices, namely life jackets; non-medical devices for protection against X-rays and nuclear radiation, namely protective screens; protective helmets, namely construction helmets; protective eyeglasses; protective masks; breathing apparatus and masks other than those for artificial respiration, namely cardiopulmonary resuscitation masks; disposable dust masks; gloves for protection against accidents, radiation, and fire; footwear for protection against accidents, radiation, and fire; alarms, namely personal security alarms, fire alarms, burglar alarms; fire alarms; natural disaster alarms; industrial accident alarms; apparatus for radioactivity detection; Geiger counters; instruments and machines for materials testing in the field of energy, namely inspection apparatus for inspecting the continuity of electrical circuits; security and automation apparatus for individual buildings and houses, namely central anti-intrusion alarm stations with a camera, radio; electric and electronic apparatus for detecting danger, namely fire alarms; computer software for the design, management , servicing, simulation, or testing of energy transport and distribution networks; instructional manuals, guides and brochures, in electronic form, related to energy management.

SERVICES

Advertising the goods and services of others by means of an electronic billboard; advertising the goods and services of others; business management; business administration; office functions, namely word processing and bookkeeping; information searches in computer files for others; administrative management of subsidiaries; business organization and management consulting for subsidiary companies; administration, strategy, organization, and management consulting in regard to businesses and personnel; consulting related to business strategy and management; coaching, namely provision of administrative and commercial know-how; organization and holding of trade shows, conventions, and exhibitions for commercial and advertising purposes in the field of energy; radio and television advertising, namely production and dissemination of advertisements broadcast on television and the radio; advertising mail, namely distribution of catalogues and pamphlets by mail; promotion of the sale of goods and services through the distribution of advertising materials and promotional contests; promotion of the sale of goods and services through a customer loyalty program; development and design of advertising campaigns; advertising sponsorship for the goods and services of others; promotional and commercial sponsoring and patronage, namely charity fundraising and sponsorship of sporting events; research of advertising and financial sponsors; administrative management of exhibition grounds; start-up assistance for new businesses and associations; public relations services; sales promotion for others; promotion, for the benefit of others, of products functioning by means of all kinds of energy; business management consulting and business organization and management consulting in the fields of ecology, urban planning, the reduction of polluting emissions and waste; business expertise in the fields of ecology, urban planning, the reduction of polluting emissions and waste; distribution of tracts, flyers, printer matter related to ecology and urban planning; cost analysis related to the consumption of energy and raw materials, greenhouse or non-greenhouse gas emissions, transport, the production of polluting emissions and waste, environmental impact, and assistance with budgetary decisions related to the consumption of energy and raw materials, greenhouse or non-greenhouse gas emissions, transport , the production of polluting emissions and waste, environmental impact; compilation and systematization of statistics in the field of energy; production of energy consumption statements; billing services; management and processing of electronic invoices; price comparison services; provision of business consulting and information for consumers with regard to energy; management of client accounts containing information related to prepaid cards, gift cards, and credit cards; computer database management; provision of administrative and commercial consulting and information to businesses in the field of energy; publication of advertising copy; commercial consulting and information in the fields of environmental protection, carbon emissions, the preservation of natural resources, renewable energy, new energies, and sustainable development; business information and consulting related to the production, supply, consumption of gas; commercial estimates of energy consumption; telephone consultation related to business management; business consulting for the purchase and selection of electrical apparatus, namely electrical control systems for lighting, electrical control systems for electric device heating and air conditioning systems, selected according to criteria related to the technical qualities, cost, and energy consumption management thereof; business analysis services, namely access to a system for preselecting products for others and providing business advice on the selection of energy, electrical, and industrial equipment likely to met current standards and regulations; business consulting and commercial information for the selection of professionals to carry out repairs in the field of energy; business consulting and information for the selection of installers of energy equipment, namely gas burners, hot water boilers, heating boilers, electronic controllers for boilers; business consulting and information related to insulation and housing; business consulting related to tax deductions and benefits and tax savings and credits that promote energy conservation and sustainable development for optimizing the production and distribution of energy; wholesale and retail of electricity, fuels, coal, fuel oil, firewood, gas, petroleum, photovoltaic panels; buying and selling on wholesale gas and electricity markets; purchasing of photovoltaic electricity; purchasing of electricity originating from installations for renewable energy use; auctioneering of gas and electricity; business appraisals; commercial estimates regarding gas and electricity; import-export agencies; procurement of gas and electricity for others; sale of turnkey photovoltaic facilities; sale of turnkey energy production and distribution plants; promotion, for others, of vehicles functioning on alternative energy sources; financial securities brokerage services; financial analysis and consulting; insurance; monetary affairs, namely foreign exchange transactions, acquisition and assignment of claims; real estate affairs, namely financial estimates and assessments of real property, real estate brokerage, real estate agencies, consulting related to real estate, real estate investments, real estate management, and financing of building leases with the option to purchase; capital build-up or investment; estimation of construction costs; estimation of home improvement costs; investment consulting; financial and budgetary estimates for energy saving measures; information and data related to the stock market; financial equity participation, namely investment in businesses through the purchase of shares or other financial securities in the financial, commercial, industrial, personal property, and real property sectors; build-up and investment of capital; management of financial and stock market portfolios, of personal property and real property portfolios; securities investment agencies, investment of funds for others, financial investment in the field of mutual funds; mutual fund brokerage; financial investment of private equity funds for others; financial management of shares and stocks held in third party companies; financial engineering; stock market transactions; brokerage in the field of energy raw materials; market fluctuation monitoring services in the field of raw materials; stock brokerage in the energy sector; brokerage of raw materials, namely gas, coal, and hydrocarbons; consulting services on obtaining carbon credits, namely for obtaining credits related to a reduction of greenhouse gas emissions; insurance services in the field of energy activities and intended for businesses and individuals; insurance services related to breakdown repairs of collective and individual heating, electricity, water, solar, gas, fuel, refrigeration installations; insurance contracts covering electrical installations and electrical materials; individual insurance contracts covering the risk of non-payment of electrical and gas energy bills; insurance contracts covering electrical and plumbing breakdown repairs; financial consulting related to fees available in the field of energy consumption and management; financial studies and financial consulting to improve, develop, and renovate energy installations, namely electric and gas installations; financial information services in the field of energy; financial information and financial consulting related to energy consumption management; financial consulting for the purchase and selection of electrical apparatus chosen according to criteria related to technical qualities, cost, and energy consumption management; financial analysis for product pre-selection for others and financial consulting in the choice of electrical and industrial equipment likely to meet current standards and regulations; financial information and consulting on the cost and operation of electrical apparatus; financial information and financial consulting related to energy prices; financial loans related to the development and improvement of energy installations; financing services; financial loans for the acquisition of electric installations, heating installations, or installations operating on all types of energy; financing of energy-saving home renovations; loans for the construction of new energy-saving and environmentally friendly homes; financial consulting related to tax deductions and benefits and tax savings and credits promoting energy savings and sustainable development; financial estimates to improve the energy, heating, and environmental performance of homes and housing stock; property management; real estate rental management; financial sponsorship, namely financial sponsorship of sporting events and competitions, financial sponsorship of artistic events, exhibitions, and cultural or educational events ; financial sponsorship searches; financial assistance in the creation of businesses and associations; philanthropic organization offering monetary donations; demolition services; installation, maintenance, and repair of machines and apparatus, namely electric generators, electrical connectors for current converters, for energy distribution; maintenance of electrical facilities, lighting apparatus, heating apparatus, air conditioning apparatus, electrical apparatus, photovoltaic panels, solar panels, wind turbines, boilers, furnaces, burners, cooking, refrigeration, ventilation, air conditioning apparatus, water distribution and sanitary installations; installation of electrical systems; electrical heating appliance installation; electrical lighting apparatus installation;

installation and repair of lighting apparatus, heating apparatus, air conditioning apparatus, electric apparatus, photovoltaic panels, solar panels, wind turbines, boilers, furnaces, burners, cooking, refrigeration, ventilation, air conditioning apparatus, water distribution and sanitary installations; installation, maintenance and repair of smart systems, namely security systems, surveillance systems, and lighting systems for buildings; industrial work, namely construction of factories in the field of energy, construction of industrial sites in the field of energy, energy generation and distribution facilities; construction, maintenance, and repair of thermal facilities, electrical facilities, nuclear power plants, hydroelectric plants, hydraulic plants, dams, wind farms, oil pipelines, gas pipelines, gas transport pipes, power lines, oil facilities, underwater turbine farms, photovoltaic parks, tidal power plants, geothermal power plants, and biomass power plants; technical consulting and information related to the installation, maintenance, and repair of power generation equipment and facilities; construction, maintenance, and repair of electrical power transport and distribution lines; installation and moving of electricity meters and gas meters; construction, maintenance, and repair of pipelines for the transport of gas, fluids, and solids; technical installation, maintenance, and repair of computers and computer peripherals; installation of acoustical insulation and glass wool insulation; construction, maintenance, and repair of underwater turbine and ocean wave installations, pipelines, conduits for energy transport; information related to construction, maintenance, and repair in the fields of renewable energy, sustainable development, environmental protection, natural resource conservation, and the fight against climate change; installation, maintenance, rehabilitation, decontamination, disinfestation, disinfection, destruction, and renovation of industrial works, namely plants, industrial sites; installation, maintenance, rehabilitation, decontamination, disinfestation, disinfection, destruction, and renovation of facilities for energy and electricity generation, nuclear power plants, nuclear reactors, thermal power plants, hydroelectric power plants, hydraulic plants, dams, wind farms, oil pipelines, gas pipelines, gas transport pipes, power lines, petroleum facilities, photovoltaic parks, tidal power plants, geothermal power plants, and biomass power plants; maintenance of power generation facilities, nuclear power plants, nuclear reactors, thermal power plants, hydroelectric power plants, hydraulic plants, dams, wind farms, oil pipelines, gas pipelines, gas transport pipes, power lines, petroleum facilities, photovoltaic parks, tidal power plants, geothermal power plants, and biomass power plants; construction of wastewater treatment and/or purification facilities; construction, installation, maintenance, repair, and servicing of plants and centres for the storage, treatment, reprocessing, and recycling of fuels and waste; supervision, management of the installation, maintenance, servicing, and repair of apparatus for the generation, provision, and distribution of energy, namely electric generators and electrical connectors for current converters; installation, servicing, and repair of all systems for the protection and security of property and individuals; maintenance, cleaning, and repair of electric vehicles and electric vehicle recharging terminals; roadside assistance; construction consulting; consulting for the construction of energy and electricity generation facilities, nuclear power plants, power plants, thermal power plants, hydroelectric power plants, hydraulic plants, dams, wind farms, oil pipelines, power lines, petroleum facilities, underwater turbine farms, photovoltaic parks, tidal power plants, geothermal power plants, and biomass power plants; transport of goods by boat; transport of goods by truck, transport of goods by train; transport of goods by air; information related to transportation; packaging and storage of goods; transport, distribution, and supply of energy, electricity, gas, hydrocarbons, heating, water, nuclear power, thermal power, wind power, hydraulic power, hydroelectric power, underwater turbine power, petroleum, bioenergy, renewable energies, biomass energy, geothermal energy, solar energy; collection services by air, land, or water, warehousing and storage of fuels, ores, nuclear materials, and nuclear waste; information and consulting related to the transport and supply of electrical energy; distribution, namely delivery of non-advertising printed matter related to energy , its transport, distribution, and supply, environmental protection, new energies, natural resource and biodiversity conservation, sustainable development; technical information and consulting about installations for the transport, supply of energy, namely electrical, nuclear, wind, solar, photovoltaic, thermal, hydraulic, underwater turbine, geothermal, hydroelectric energy, petroleum, bioenergy, renewable energies, biomass energy, solar energy, gas, steam, and water energy; production of energy, electricity, gas, heating, nuclear power, thermal power, wind power, hydraulic power, hydroelectric power, underwater turbine power, petroleum, bioenergy, renewable energy, biomass energy, geothermal energy, solar energy; air deodorization; air purification; air freshening, wastewater purification; treatment of materials, namely recycling of paper, textiles, glass, and plastic, hazardous materials decontamination, hazardous waste management, waste management services, sorting of refuse, treatment and processing of fuels for power generation; information related to the treatment of materials in the energy sector; recycling of waste; information related to waste treatment; hazardous materials decontamination; waste management services, namely processing; sorting of waste and raw materials for recovery; treatment and processing of fuels for power generation; rental of photovoltaic solar installations and solar collectors, electrical installations, wind installations, and underwater turbine installations; maintenance and renovation of nuclear facilities; fuel sorting services; decontamination, cleaning, pollution control, sanitation, maintenance, and renovation of nuclear facilities, energy and electricity generation facilities, equipment and apparatus in the field of power generation; professional consultations related to the generation of energy, electricity, gas, heating, nuclear power, thermal power, wind power, hydraulic power, hydroelectric power, underwater turbine power, petroleum, bioenergy, renewable energy, biomass energy, geothermal energy, solar energy; technical information and consulting about facilities for the generation of energy, electricity, gas, heating, nuclear power, thermal power, wind power, hydraulic power, hydroelectric power, underwater turbine power, petroleum, bioenergy, renewable energy, biomass energy, geothermal energy, solar energy; technical consulting and expertise, namely engineering work related to air conditioning, heating, and lighting; consulting and technical expertise in the field of the production of energy, namely electrical, nuclear, wind turbine, solar, photovoltaic, thermal, hydraulic, geothermal, underwater turbine, hydroelectric, petroleum, bioenergy, renewable energies, biomass energy, solar energy, gas; technical project studies; research and development of new products for the benefit of others; development, installation, updating, or rental of computer software; computer programming; chemical analysis; oil exploration analysis; programming and maintenance of home automation installations as well as programmable controllers for construction; drafting of construction plans, namely architectural plans ; architectural services; architectural consulting for environmental protection, new energy development, natural resource preservation, implementation of sustainable development and urban planning projects; engineering services in the field of electrical energy generation and transport; mechanical engineering; chemical engineering; nuclear engineering; research and development in the field of electrical engineering, generation of electrical energy, nuclear power, wind power, solar power, hydraulic power, geothermal power, thermal power, climatic power, biomass power, renewable energies; technical consulting and technical expertise in the field of the generation of electrical energy, nuclear power, wind power, solar power, hydraulic power, geothermal power, thermal power, renewable energies; expert energy efficiency consulting services; engineering services to better manage the production, storage, and consumption of energy; research and development services on the environmental impact of power generation installations, engineering services for assessing electricity needs and availabilities and for adapting tools to electricity distribution; engineering services for the design and construction of new energy generation and distribution facilities; technical consulting related to energy savings; research in the field of environmental protection; technical studies for the evaluation and optimization of the energy performance of buildings; energy auditing services; technical consulting and advisory services regarding environmental protection and renewable energy development; technical studies and research related to waste treatment, waste recycling; technical studies and research related to materials treatment; scientific and technological project management and laboratory work in the fields of electricity, renewable energies, sustainable development, ecology, urban planning, environmental protection, the reduction of polluting emissions and waste, natural resource conservation, and the fight against climate change; studies, research, and expertise rendered by engineers in the fields of energy, the environment, natural resources, sustainable development, and urban planning; technical services involving the remote reading of energy consumption meters; technical assessments and estimates related to energy consumption; technical consulting, technical information related to heating; technical consulting and information related to energy consumption management; technical consulting provided via telephone by engineers for the use of electric devices and installations; technical consulting related to the purchase and selection of electrical apparatus chosen according to criteria related to the technical qualities, price, and energy consumption management thereof; technical analyses, studies, and diagnostics rendered by engineers for the installation of apparatus for the production, supply, and/or distribution of energy, gas, heating, and water; research and development services in the field of thermal insulation and of solar and weather protection for homes; technical consulting and information related to thermal insulation and to solar and weather protection for homes; technical consulting and information for the evaluation and modification of electricity and/or gas meter power; placement and recruitment of personnel in the field of construction; technical consulting and information for the selection of professionals to carry out repairs; technical consulting and information for the selection of energy equipment installers; technical consulting and information related to housing insulation; diagnostic services related to the energy performance of real properties; energy, thermal, and environmental analysis of housing and housing stock; technical expertise, namely assistance with decision making through the research of technical facts, in relation to technology transfer, namely formal transfer, to the industry, of discoveries resulting from academic or private research in order to market these in the form of new products/services; transfer of technical know-how, namely training of personnel in the field of electrical energy generation and transport; technical consulting and technical assistance in engineering for technology transfer, namely formal transfer, to the industry, of discoveries resulting from academic or private research in order to market these in the form of new products/services, and the transfer of technical know-how, namely training of personnel in the field of electrical energy generation and transport; quality assurance and security services in the field of electric installations; materials testing in the field of energy; technical trials related to electricity, heating, home automation; technical consulting, namely providing assistance for others to ensure that their personnel, products, materials, industrial installations, and facilities comply with current standards and regulations in the field of energy; audits regarding security and compliance with current regulations in all energy and electricity generation facilities; technical assistance, namely testing, analysis, and evaluation of products and services for the purpose of issuing compliance certificates and certification in the field of energy; quality control services for power generation apparatus, namely photovoltaic modules, particle accelerators, namely computer software and equipment for the sterilization, ionization, and treatment of materials and the generation of energy, photovoltaic solar panels with photovoltaic modules, photovoltaic thermal panels for the generation of electricity, ammeters, anemometers, barometers, dynamometers, galvanometers, gasometers, ohmmeters, voltmeters, lightning arresters, lightning rods, transmission towers; technical inspection and expertise regarding energy installations, namely heating, air conditicning, cooling system installations, fluid network installations; research and development services in the field of electric transport, namely electric batteries, electric terminals, electric vehicles, streetcars, trolley buses, electric buses, electric boats; security guard services for the protection of goods and individuals; information and consulting related to security; security inspection services for construction projects, power facilities, and nuclear facilities; rental of equipment for the protection of goods and individuals; security and surveillance of industrial works, energy and electricity generation facilities, nuclear power plants, thermal power plants, hydroelectric power plants, hydraulic plants, dams, wind farms, oil pipelines, gas pipelines, power lines, petroleum facilities, photovoltaic parks, underwater turbine farms, tidal power plants, geothermal power plants, and biomass power plants; surveillance of electricity, heat, and energy distribution networks; consulting on and checking of electric and electronic apparatus for measuring, checking, monitoring, detecting, or locating danger, namely fire or intrusion; prevention of industrial-source safety risks, namely predictive human reliability analysis and assessment in the event of accidents in industrial settings; security and monitoring of senior citizens, sick individuals in or outside of their homes; video surveillance services, anti-intrusion alarm monitoring, night-time surveillance agencies; information services, for local communities or the general public, related to the field of social action intended to help the most vulnerable individuals or groups lead better lives, acquire or maintain their independence, and adapt to their social surroundings, related to public and civil security; electrical facility security control; legal services; legal analysis; legal aid services in regard to business creation; legal expertise related to technology transfer; legal partnership research; technology transfer contract writing, namely legal services; legal advice services related to tax deductions and benefits and tax savings and credits that promote energy savings and sustainable development; mediation; social mediation to resolve energy insecurity situations; generation and transport of energy and electricity products, namely thermal power, hydraulic power, hydroelectric power, underwater turbine power, wind power, solar power, geothermal power, electrical power, nuclear power. .

CLAIMS

Proposed Use in CANADA on goods and on services

Application Number 1,619,676 **Filing Date** 2013-03-25
Language of Application French

APPLICANT AND REPRESENTATIVE FOR SERVICE

Applicant
LABORATOIRE COTRAL, rue Des Léopards,
ZA Charles Tellier, 14110 Conde-sur-Noireau,
FRANCE

Representative for Service
BCF S.E.N.C.R.L./BCF LLP
1100, boul. René-Lévesque Ouest, 25e Étage,
Montréal, QUÉBEC, H3B5C9

TRADEMARK

COTRAL

GOODS

Measurement software for checking hearing protection devices; measurement apparatus and instruments for checking personal hearing protection equipment, namely hearing test apparatus, audiometers, computer software for testing the effectiveness of hearing protection devices; wireless transmitters and receivers and constituent parts thereof; earphones, namely hands-free earpieces, earphones for music, earphones for portable telephones, earphones for computers, earphones for telephones; headphones; protective noise-reducing headphones, headphones with microphone attachments for communication; ear plugs and pads for non-medical use; apparatus for hearing or ear protection, namely hearing protection devices, implants, hearing amplifiers, attenuators, audiphones, earpieces, hearing aids; custom tips created using an ear print; moulded individual hearing protection equipment; surgical, medical instruments; artificial limbs; ear protection devices, namely protective noise-reducing headphones; noise-reducing ear plugs; apparatus and instruments for the maintenance and hygiene of hearing protection devices, namely cleaning wipes, effervescent tablets, cleaning preparations for hearing aids, disinfectant soaps for ears and hearing aids, washing solutions in the form of foams, gels, and sprays for the ears.

SERVICES

Paramedical services; medical equipment rental; consulting related to medical devices.

CLAIMS

Used in FRANCE on goods and on services. Registered in or for FRANCE on October 28, 2011 under No. 3870430 on goods and on services. Proposed Use in CANADA on goods and on services

GOODS

(1) Computer software for use in database management, information and knowledge management, document management, work flow management, tracking and reporting problems, project management for use in the field of enterprise wiki collaboration, website and webpage design and management, and computer networks management, distributed online or recorded and downloadable, and instructional materials, namely instructional manuals, parts and fittings for the aforementioned goods; computer programs and recorded software for use in database management, information and knowledge management, document management, work flow management, tracking and reporting problems, project management for use in the field of enterprise wiki collaboration, website and webpage design and management, and computer network management, distributed online or recorded and downloadable, and instructional materials, namely, instructional manuals, and parts and fittings for the aforementioned goods; pre-recorded electronic publications in the field of database management, work flow management, tracking and reporting problems, project management for use in the field of enterprise wiki collaboration, website and webpage design and management, and computer network management; electronic newsletters, namely electronic newsletters relating to issue tracking and collaboration, project management, continuous integration systems, enterprise wikis and single sign-on identity management systems, and instructional materials, namely, manuals, and parts and fittings for the aforementioned goods

(2) Computer software distributed online or recorded and downloadable, namely in the field of database management; computer programs and recorded software distributed online or recorded and downloadable, namely in the field of database management; pre-recorded electronic publications namely in the field of database management and sold and distributed online; electronic newsletters in the field of computer software; instructional materials, namely manuals, and parts and fittings for all of the aforesaid goods

SERVICES

(1) Provision of access to computer databases in the fields of information and knowledge management, document management, work flow management, tracking and reporting problems, project management for use in the field of enterprise wiki collaboration, website and webpage design and management, and computer network management, and providing information and consultancy services for all the aforementioned services; consulting services in the field of design and development of computer software, and providing information and consultancy services for all the aforementioned services; software application provider services for computer software and computer programs for database management, information and knowledge management, document management, work flow management, tracking and reporting problems, project management for use in the field of enterprise wiki collaboration, website and webpage design and management, and computer network management, and providing information and consultancy services for all the aforementioned services; computer software design and installation, modification and maintenance of computer software, and providing information and consultancy services for all the aforementioned services; computer software consulting services regarding the analysis, design, development, technical support and maintenance of computer software for use in database management, information and knowledge management, document management, work flow management, tracking and reporting problems, project management for use in the field of enterprise wiki collaboration, website and webpage design and management, and computer network management, and providing information and consultancy services for all the aforementioned services; Data storage services, namely storage of computer software development projects on computer media, and data processing services, namely conversion of computer programs and data, and providing information and consultancy services for all the aforementioned services; consultancy services in the field of computers and software, namely consulting services regarding the analysis, design, development, technical support and maintenance of computer software for use in database management, information and knowledge management, document management, work flow management, tracking and reporting problems, project management for use in the field of enterprise wiki collaboration, website and webpage design and management, and computer network management, and providing information and consultancy services for all the aforementioned services; leasing access time to a computer database in the field of database management, information and knowledge management, document management, work flow management, tracking and reporting problems, project management for use in the field of enterprise wiki collaboration, website and webpage design and management, and computer network management, and providing information and consultancy services for all the aforementioned services; hosting and maintaining an on-line web site for others to collaboratively develop software; hosting an on-line community web site featuring a distributed control system for collaborative development of software

(2) providing access to online computer databases, namely computer databases containing computer software development projects; computer services, namely, hosting and maintaining an online website for others to collaboratively develop software; hosting an online community website featuring a distributed control system for the collaborative development of software; consulting services in the field of design and development of computer software; software application service provider in the field of software for the collaborative development of software; computer software design; installation, modification and maintenance of computer software; computer system design and analysis; data hosting services, namely, hosting of software development projects for access by software developers; data conversion of computer programs and data; consultancy services in the field of computers and software; leasing access time to a computer database in the field of computer software development; providing information and consultancy services in respect of the above services, namely by electronic means via a global computer network

CLAIMS

Used in CANADA since at least as early as December 2004 on goods (1) and on services (1). Priority Filing Date: AUSTRALIA February 04, 2013, Application No: 1538830 in association with the same kind of goods (2) and in association with the same kind of services (2). Colour Claim

Colour is claimed as a feature of the trade-mark. The logo consists of a circular bubble made up from three circles and a letter C in the center of the bubble. The outside circle consists of yellow in the top left section and black in the bottom right section. The middle circle consists of colors burgundy in the top section, fuchsia in the right section, blood orange in the bottom section, and orange in the left section. The interior circle consists of colors light green in the top section, green in the right section, bleu de France in the bottom section, and light blue in the left section. The letter C in the center is black. The word 'canada.com' in the bottom of the design is black.

GOODS

Computer programs for financial modeling, budgeting, scheduling and planning for use in mining, mining engineering, geology, process and metallurgical engineering, environmental and geotechnical engineering, natural resources, and environmental economics, excluding computer programs for restaurants, hospitality and retail stores; computer software namely financial modelling software for use in mining, mining engineering, geology, process and metallurgical engineering, environmental and geotechnical engineering, natural resources, and environmental economics excluding computer programs for restaurants, hospitality and retail stores; computer software for use in professional development and resource planning for the mining and natural resources industry; computer software featuring mine planning, equipment scheduling, maintenance scheduling, finance modeling, production scheduling, materials management, quality management, human resources management and project management and educational software containing topics of instruction on all of the above; Paper, cardboard; printed matter namely photographs; instructional and teaching material (except apparatus), namely printed instructional, educational and teaching material on the subject of mining, namely worksheets, books; catalogues, handbooks, instruction books, instruction guides, instruction manuals, manuals, printed books, printed manuals relating to, or sold with, the aforesaid computer software

SERVICES

Business merger, acquisition and divestiture consulting and advisory services; consulting and advisory services, namely business management consulting and advisory services and business consulting and advisory services in the field of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; market research services particularly in relation to natural resource projects; consulting and advisory services relating to personnel management; providing consulting and advisory services, namely, business management consulting and advisory services and business consulting and advisory services in the field of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources and providing information by means of a global computer network, in the fields of business merger, acquisition and divestiture consulting and advisory services, consulting and advisory services, namely business management consulting and advisory services and business consulting and advisory services in the field of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources, and database marketing services in the form of compiling customer specific databases for marketing purposes and consulting, designing, printing, and collecting marketing information; providing access to information via a global computer network in the fields of business management and business, namely in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; business planning for mine operations; management consulting in relation to risk assessment and control, equipment utilization and capital replacement; economic forecasting analysis for business purposes; financial analysis; financial analysis and consultation; financial analysis consultation services; financial valuation services in the areas of business enterprises, mining assets, inventories, assets, equipment, licensing, real estate and intellectual property; real estate appraisal services; risk management services; providing consulting and advisory services, namely financial analysis, financial analysis and consultation, financial analysis consultation services, insurance consulting and advisory services, and providing access to information by means of a global computer network in the fields of investment consulting and advisory services, financial consulting and advisory services, insurance consulting and advisory services; financial valuation services in the areas of business enterprises, inventories, assets, equipment, licensing, real estate and intellectual property; providing information via a global computer network in the fields of financial planning and investment strategies; financial economic advisory services; financial modeling; financial advice on tenders and contracts; investment valuations; mineral project economic valuations; educational and training services for business, information technology, computers, management, training, financial planning and investment strategy, mine management, and mine maintenance in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; educational services in the field of consulting services, namely in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources, information management, marketing, economics, corporate finance, risk analysis, capital markets, finance; seminars, conferences, workshops, for business, information technology, computers, management, training, financial planning and investment strategies in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; providing educational services via a global computer network for business, information technology, computers, management, training, financial planning and investment strategies in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; providing access to information via a global computer network in the field of natural resource assessment training; training courses in assessment of natural resources; software training courses in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; provision of web-based software and applications for professional development and education in relation to resource planning, for the mining and natural resources industry; computer services, namely providing online facilities management software for the provision of information in relation to resource planning for the mining and natural resource industry, mine planning, equipment scheduling, maintenance scheduling, finance modeling, production scheduling, materials management, quality management, human resources management and project management; providing training and technical support for the use and application of the aforesaid computer programs and software for financial modeling, budgeting, scheduling and mine planning; environmental planning, namely assessing environmental risk, preparing environmental reports, conducting environmental analysis in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; design and management of resource exploration programmes in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; geological modeling and consulting; laboratory and field testing for gas and commodities to support mine gas management and gas production; consulting for natural resource exploration, extraction and production, mining and environmental planning; gas content and composition testing in geological material; preparing technical due diligence reports on natural resource projects; providing technical quality audits in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; providing engineering project management services in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; providing project management (design) in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; providing design engineering in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; engineering services in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; engineering consultancy in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; providing engineering design, engineering drawing, engineering feasibility studies, engineering project studies, and engineering research all in the fields of in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; engineering services relating to mining architecture; engineering surveying relating to mining architecture, mining, geology and natural resources; engineering surveys and inspections relating to mines, mining architecture, mining, geology, and natural resources; preparation of engineering drawings for financial modelling, budgeting, scheduling and mine planning for use in mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; preparation of engineering reports relating to mining architecture , mining, geology, natural resources, environmental engineering, geotechnical engineering; provision of engineering reports relating to architecture, mining, geology, natural resources, environmental engineering, geotechnical engineering; research in the field of mining engineering and mining architecture, mining, geology, natural resources, environmental engineering, geotechnical engineering; advisory services relating to building design; building design services; advisory services relating to industrial design; design consultancy relating to building design, industrial design, road networks; design of buildings; design of road networks; industrial design; gas, oil, petroleum, minerals exploration (prospecting); technological and design services, namely the provision of financial modeling, budgeting, scheduling and mine planning software and mining design services and industrial and research analysis for the mining industry and in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; scientific and industrial consultancy, research and analysis, the foregoing in relation to mining and mining businesses in the fields of mining, geology, process and metallurgical engineering, environmental engineering, geotechnical engineering, environmental economics and natural resources; architectural services

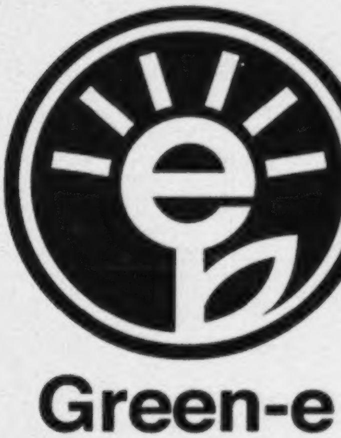
CERTIFICATION MARK



Index Headings
E GREEN-E

Image Description (Vienna)
- Luminous sources, rays, shafts of light
- Other flowers, blossoms -- Notes: (a) Including flowers or blossoms of trees (cherry trees, peach trees, apple trees) and of bushes. -- (b) Including flowers of protea and strelitzia.
- Stylized flowers
- One flower
- Letters or numerals representing a human being or a part of the human body, an animal or a part of an animal's body, a plant, a heavenly body, a natural phenomenon or an object
- Letters or numerals representing an animal or a part of an animal's body
- Circles
- More than two circles or ellipses, inside one another, spirals
- Circles or ellipses containing one or more letters
- Circles or ellipses containing representations of animals, parts of animals' bodies or plants
- Circles or ellipses with dark surfaces or parts of surfaces

Certification Mark Text

The certification mark, as used by person authorized by the certifier, certifies that: (i) the user consumes or has consumed a qualifying amount of renewable electricity from an eligible electricity generator in accordance with the standards for ensuring that the renewable attributes are in fact renewable, and are accounted for appropriately to ensure that they are not double counted; (ii) that a renewable electricity product (namely, a utility green power, green pricing, or green tariff program; a competitive electricity supplier renewable electricity product; or a stand-alone Renewable Energy Certificate product) meets environmental, product, verification, and disclosure requirements to ensure that the customer has clear and complete information about the renewable energy including disclosing the type of renewable energy, to ensure that the renewable attributes are in fact renewable, that what is sold matches the representations to the customers, that they are accounted for appropriately to ensure that they are not double counted, and that the generation is in excess of what is required to meet a law or mandate in the power sector; (iii) that a Carbon Offset meets environmental, verification, and disclosure criteria, that the customer has clear and complete information about the carbon offset including the project type, that the carbon offsets are accounted for appropriately to ensure that they are not double counted, that they contain emissions reductions that are permanent, verified, enforceable, and real from projects that are additional, and that this has been validated and verified through an independent project verification program. Verification of the ownership of the attributes and environmental claims and marketing language is also required to ensure accuracy; and (iv) that the goods and services bearing the mark have been produced and rendered though the use of a significant amount of renewable energy and qualifying carbon offsets that meet the standards above and have not been double counted; organizations must attest that the organization has met its eligible renewable energy and carbon offset commitment by submitting the appropriate Attestation Form(s). Minimum renewable energy purchases depend on the company electricity use. To display the Green-e logo on products the business must meet the minimum program commitment requirements for product manufacturing. A business may choose to certify all of its products, a select group of products, or product line. A copy of the complete details of the standard are available for the public within the Canadian Intellectual Property Office.

ESSILOR

Foreign Character Translation/Transliteration
According to the applicant, ESSILOR is a coined term and thus has no French or English translation.

GOODS

Class 09

(1) Optical, ophthalmic, and/or facial measurement apparatus; computer software for measuring and displaying optical, ophthalmic, and/or facial parameters; computer software (recorded programs), namely computer software for access to websites containing information in the fields of optometry and ophthalmic optics, computer software for access to web platforms containing information in the fields of optometry and ophthalmic optics, computer software for integrating software applications and databases containing information in the fields of optometry and ophthalmic optics for use by ophthalmic optics professionals, pupillometers; corneal reflex pupillometers; lensmeters; apparatus and instruments for conducting reading and visual acuity tests; parts and accessories for all of the above-mentioned products, namely head rests, chin rests, and supports for the nose; reading scales; removable dividers and covers for eye examinations; corrective glasses of various powers and colour filters for eye examinations; eyeglasses; sunglasses; sports glasses; eyeglass frames; ophthalmic lenses; eyeglass lenses, including organic lenses, mineral lenses, corrective lenses, progressive lenses, sunglass lenses, polarizing lenses, filtering lenses, tinted lenses, coloured lenses, photosensitive lenses, photochromic lenses, treated lenses, coated lenses, anti-reflective lenses, semi-finished lenses; contact lenses; eyeglass lens cases; ophthalmic lens cases; eyeglass cases; eyeglasses cords and chains; magnetic data carriers, namely recording discs, compact discs, DVDs, and other digital recording media, namely pre-recorded digital versatile discs containing music and information in the fields of optometry and ophthalmic optics; downloadable electronic publications in the fields of optometry and ophthalmic optics; downloadable electronic information guides and documents. Quality certificates for ophthalmic lenses, certificates of origin for ophthalmic lenses, analysis reports and certification documents related to the manufacture and treatment of ophthalmic lenses, information sheets regarding certification, standardisation, and normalization in relation to the manufacture and treatment of ophthalmic lenses; all of the aforesaid goods being in downloadable electronic form.

Class 16

(2) Printed publications in the field of optometry and ophthalmic optics, catalogues, leaflets, brochures, books, magazines, manuals, newspapers, business cards, calendars, albums, journals, manuals, booklets, flyers, printed guides, posters, paper or cardboard signs; bags, pouches, envelopes, and sleeves for packaging, made of paper or plastics; quality certificates for ophthalmic lenses, certificates of origin for ophthalmic lenses, analysis reports and certification documents related to the manufacture and treatment of ophthalmic lenses, information sheets regarding certification, standardisation, and normalization in relation to the manufacture and treatment of ophthalmic lenses; all of the aforesaid goods being in printed form.

SERVICES

Class 35

(1) Constitution and updating of commercial and advertising documentation, product and service catalogues, including in electronic form and online; distribution of catalogues for others for promotional and advertising purposes; publication of advertising copy; dissemination of advertisements for others; dissemination of advertising materials for others, namely tracts, flyers, printed matter, samples; preparation of statistics; collection and systematization of data in a central file; computer file management; opinion polls; research of sponsors; organization of competitions regarding advertising; public relations; inventory management assistance; marketing service; product presentation on all means of communication for retail; selection (promotion) of products and services (for others); product demonstration; organization of activities promoting sales and services in order to foster customer loyalty; customer loyalty services and customer club services, for commercial, promotional, and/or advertising purposes; publicity and sales promotion for others, namely over telecommunications and/or computer networks; organization of exhibitions and group activities for commercial, promotional, and/or advertising purposes; retail, wholesale, and online sale of optical, ophthalmic and/or facial measurement apparatus, computer software for measuring and displaying optical, ophthalmic, and/or facial parameters, pupillometer software (recorded programs), corneal reflex pupillometers, lensmeters, apparatus and instruments for conducting reading and visual acuity tests, parts and accessories for all of the above-mentioned products, namely head rests, chin rests, and supports for the nose, reading scales, removable dividers and covers for eye examinations, corrective power lenses and colour filters for eye examinations, eyewear, glasses (optical), sunglasses, sports glasses, eyeglass frames, ophthalmic lenses, eyeglass lenses, including organic lenses, mineral lenses, corrective lenses, progressive lenses, sunglass lenses, polarizing lenses, filtering lenses, tinted lenses, coloured lenses, photosensitive lenses, photochromic lenses, treated lenses, coated lenses, anti-reflective lenses, semi-finished lenses, contact lenses, eyeglass lens cases, ophthalmic lens cases, eyeglass cases, eyeglasses cords and chains, magnetic data carriers, recording discs, compact discs, DVDs, and other digital recording media.

Class 36

(2) Financing services, financial sponsorship, collection and distribution of charitable funds, management of benevolent funds, organization of collection drives.

Class 41

(3) Education, teaching, and training services in the fields of optometry and ophthalmic optics; organization and holding of colloquia, exhibitions, conferences, seminars, meetings, and workshops for cultural or educational purposes; information services related to education; organization of competitions and games for socio-educational, professional, and/or humanitarian purposes; organization of exhibitions for educational purposes; publication of brochures, teaching, training, and educational books; organization and conduct of award galas, concerts, fashion shows, charity galas (entertainment); editing and publication of texts (other than advertising copy); electronic publication of books and periodicals online; video and film production.

(1) mechanisms for coin-operated apparatus; cash registers, calculating machines, computers; fire-extinguishing apparatus

(2) application development computer software programs; battery chargers; battery charging devices for portable and handheld electronic devices; blank computer discs; blank digital storage media; blank electronic storage media; blank smart cards; calculators; camera cases; camera tripods; cases for play accessories; cases, covers, stands, skins, speakers, monitors, printers, displays, and keyboards for portable electronic devices; cellular phones; character recognition software; computer accessories, namely, computer leads for external computer cabling in the nature of firewire leads, USB leads; computer and memory storage devices, namely, blank flash drives, USB drives, digital USB storage cards and card readers; computer cables; computer e-commerce software to allow users to perform electronic business transactions via mobile devices , and local and global computer networks; computer game machine, mobile phone, cellular phone, smart phone, TV and portable and handheld electronic device accessories, namely, monitors, displays, keyboards, mouse, wires, cables, modems, disk drives, adapters, adapter cards, cable connectors, plug-in connectors, electrical power connectors, docking stations, charging stations, stylus, drivers, batteries, battery chargers, battery packs, power supplies, memory cards and memory card readers, headphones and earphones, speakers, microphones, headsets, cases, covers, and stands for computers and set-top-boxes; computer game machines fitted with a camera function adapted for use with external display screen or monitor; computer hardware and peripherals for displaying data and video; computer hardware and peripherals for remotely accessing and transmitting data; computer hardware and software for collecting, analyzing, and providing data and information regarding electronic payment transactions; computer hardware and software for controlling the operation of audio and video devices and for viewing, searching or playing audio, video, television, movies, photographs and other digital images, and other

multimedia content; computer hardware; computer hardware, software, and peripherals for enabling real-time user interaction with digital content on holographic displays and screens; computer hardware, software, and peripherals for interactive television (TV) programming and social networking; computer hardware; computer mice; computer network routers and hubs; computer peripherals in the nature of wireless cards; computer software and hardware for transmitting, sharing, receiving, downloading, displaying, recording, transmitting, manipulating, transferring, and optimizing content, text, visual works, audio works, audiovisual works, literary works, data, files, documents, electronic works, and computer game programs via computers, mobile phones, cellular phones, smart phones, televisions (TVs), TV receivers, set-top-boxes, computer game machines, or portable electronic devices; computer software development kit consisting of computer software development tools for the development of content and service delivery across global computer networks, wireless networks, and electronic communications networks; computer software enabling content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works to be downloaded to and accessed on a computer, mobile phones, cellular phones, smart phones, television (TVs), TV receiver, set-top-box , computer game machine, or portable electronic devices; Computer software for accessing movies , TV shows, videos and music; computer software for collecting, analyzing and reporting business related data and information, namely software for creating and reporting of business analytics relating to payment processing, authentication, and tracking; computer software for facilitating and completing money transfers via email, mobile devices and global and local computer networks; computer software for facilitating and managing merchant-customer communications, and providing payment transaction information; computer software for facilitating mobile payments, and enabling consumers to use their electronic signature, pin, name or photo in completing mobile payment transactions; computer software for formatting and converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works into a format compatible with portable electronic devices, mobile phones, cellular phones, smart phones, and computers; computer software for formatting and converting content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works into a format compatible with computers, mobile phones, cellular phones, smart phones, televisions (TVs), TV receivers, set-top-boxes, computer game machines, or portable electronic devices; computer software for issuing receipts regarding mobile payment transactions; computer software for providing an on-line database in the field of transaction processing to upload transactional data, provide statistical analysis, and produce notifications and reports; computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information; computer software for use in issuing invoices and collecting amounts due; computer software to receive, transport, encode, decode, decrypt, encrypt, transmit, multiplex, de-multiplex, and manipulate video, audio, and text in digital format to deliver television and other video programming to appropriate video devices for distribution of television programming for viewing on TVs, monitors, mobile phones, cellular phones, smart phones, computers, tablet computers, and portable electronic devices; computer software which facilitates online services for social networking; computer software, namely software application for use by consumers in the field of mobile payments; computer, downloadable electronic, mobile phone, cellular phone, and smart phone video games software; computers, audio and video players, electronic personal organizers, personal digital assistants, and global positioning system devices and electronic and mechanical parts and fittings therefore; computers; converters; digital electronic components and accessories, namely, holsters, carrying cases, and fitted plastic films known as skins for covering and providing a scratch proof barrier or protection specifically designed for computers, digital audio and media players, MP3 players, mobile phones, personal digital assistants; downloadable audio works, visual works, audiovisual works and electronic publications featuring books, magazines, newspapers, periodicals, newsletters, journals and manuals on a variety of topics; downloadable audio, video and audiovisual content provided via computer and communications networks featuring movies, TV shows, videos and music; downloadable audiobooks and digital audio files; downloadable digital audio files featuring music, news, voice and spoken word; downloadable electronic publications in the nature of fiction, non-fiction, comics and screenplays via computer and communications networks; downloadable films and movies featuring fiction and non-fiction stories provided via computer and communications networks; downloadable templates for designing books, short stories, storyboards, screenplays, comics, audio and video files; DVD burners; DVD drives; electrical and power cables; electrical connectors, wires, cables, and adaptors; electrical, audio, and wires, printers, and connectors; electronic books; electronic devices , namely card readers, computer chip readers, point of sale terminals, and related hardware and software, all for accepting, effecting, enabling, facilitating, processing, operating, authenticating and managing payment transactions via mobile devices and local and global communications networks; electronic docking stations; electronic game controllers; electronic game peripherals; electronic game software; extension cables; flash card readers; game machines and apparatus, namely, LCD game machines; games featured on a portable handheld device; graphical user interface software; handheld computers; Hand-held game apparatus with liquid crystal displays and parts and fittings for hand-held game apparatus with liquid crystal displays, namely, power supplies, cables and battery chargers, all sold as a unit; hand-held games with liquid crystal displays; Handheld unit for playing electronic games; hardware and software for making, processing and authenticating payment transactions with credit cards, debit cards, gift cards, pre-paid cards, and other payment forms; headphones and earphones; holographic projection system and apparatus; image recognition and matching software; keyboards; media player components and accessories, namely, protective covers and cases for portable media players, chargers, electrical and power cables; media players; memory cards and memory card readers; mobile computers; mobile phones; motion sensitive and interactive computer hardware, software namely software featuring custom sensor and user motion tracking functionality, and peripherals namely motion sensitive and interactive tracking peripherals for real-time user interaction on displays and screens; parental control software ; personal digital assistants; portable and handheld electronic devices for transmitting, storing, manipulating, recording, and reviewing text, images, audio, video and data, including via global computer networks, wireless networks, and electronic communications networks and electronic and mechanical parts and fittings therefore; power adaptors, power cords, power chargers; printer components and accessories, namely, cables; projectors, namely, sound projectors and amplifiers; protective carrying cases specially adapted for hand-held video game systems; publishing software ; remote controls; set-top boxes, namely, audio, video, and media receivers and decoders, cable television converters, and Ethernet streaming media converters; set-top-boxes; smart phones; software for developing and publishing applications for interactive video streaming to any device having a video decoder and an upstream signal; software for text, image and sound transmission and display; software for use on any device having a video decoder and an upstream signal in interacting with an application for interactive video streaming to the device; software in the field of text, image and sound transmission and display; tablet computer, set-top box, mobile phone, and cellular phone operating system software; tablet computers, electronic book readers, audio and video players, electronic personal organizers, personal digital assistants, and global positioning system devices, and electronic and mechanical parts and fittings therefor; television (TV) tuners; USB cables; USB hardware; USB-HUBS; user interface device; video cables; video electronics and components and accessories therefore in the nature of cords, adapters, battery chargers, peripherals, and styluses; video electronics components and accessories, namely, electrical and power cables and chargers; video game controllers; virtual and holographic touchscreen; voice recognition software; wearable computer peripherals namely microphones, earphones, headphones, headsets, smart watches; wireless controller to monitor and control the functioning of other electronic devices; wireless remote controls for portable electronic devices and computers

providing recognition and incentives by the way of awards and contests to demonstrate excellence in the field of entertainment; providing reviews for television, movies, and entertainment; providing reviews, commentary and information in the field of TV, film, music, comedy, and spoken word recordings over a global computer network and other communications network; providing online virtual environments in which users can interact with each other for recreational, leisure, or entertainment purposes; publication of electronic books featuring video, games, text, photos and illustrations via computers, mobile phones, smart phones, televisions (TVs), TV receivers, set-top-boxes, computer game machines, or portable electronic devices, and global computer and communications networks; publishing of books, magazines, periodicals, literary works, visual works, audio works, and audiovisual works; publishing of online works of others featuring user-generated text, audio, video, and graphics; subscription based website featuring video games, music, videos, TV, photographs, comedy, and spoken word recordings and information about the same; video-on demand services

(3) design and development of computer hardware and software

(4) application service provider (ASP) featuring application programming interface (API) software including such software for the streaming, storage, and sharing of video games, content, data and information; application service provider (ASP) featuring software for use in relation to visual images, namely, software for digital animation and special effects of images, video games, and motion pictures; application service provider (ASP), namely, hosting computer software applications of others; application service provider (ASP), namely, hosting, managing, developing, and maintaining applications, software, and web sites, in the fields of personal productivity, wireless communication, mobile; computer consulting in the field of configuration management for portable and handheld electronic devices; computer hardware, software, application, and network consulting services; computer programming; computer services, namely collecting, analyzing, and providing data and information regarding electronic payment transactions; computer services, namely, an online interactive electronic bulletin board in the field of comic book publishing, entertainment and the entertainment industry; computer services, namely, creating an on-line community featuring technology that enables users to communicate and interact with others, participate in discussions, and share content, photos, videos, text, data, images and other electronic works, and to engage in social networking; computer services, namely, creating an on-line community for registered users to participate in discussions, get feedback from their peers, form virtual communities, and engage in social networking all in the field of entertainment and the entertainment industry; computer software development in the field of mobile applications; computer software installation and maintenance; computer software, application, and network consulting services; creating an online community for users to participate in discussions, obtain feedback, and form virtual communities; databases; design and development of computer game software; design and development of computer hardware and software; design and development of computer software; document data

transfer from one computer format to another; hosting of digital content on global computer networks, wireless networks, and electronic communications networks; hosting of third party content, photos, videos, text, data, images, web sites and other electronic works; information access, and remote data management for wireless delivery of text, graphics, animations to handheld computers, laptops and mobile electronic devices namely electronic book readers, digital audio and video players, mobile phones, smart phones, cellular phones, portable computers, tablet computers, and personal digital assistants; maintenance and updating of software and hardware relating to computer, Internet and password security; providing a web site featuring technology that allows users to input their selections of characteristics for music, or that identifies characteristics of music based on user selections, so that profiling can be completed and recommendations provided based on those characteristics; providing a website featuring technical information relating to computer software and hardware; providing a website featuring technology that enables users to create personalized music channels for independent, simultaneous listening, and share channels with other users; providing a website that gives computer users the ability to transmit, cache, receive, download, stream, broadcast, display, format, transfer and share content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; providing a website that gives users the ability to review various print, photographic, graphic image, and audio and video content and utilize a custom template to provide input, likes, dislikes, edits, changes, modifications, opinions, suggestions, and comments and engage in social, business and community networking; providing access to computer software for authoring, downloading, streaming, broadcasting, transmitting, editing, extracting, encoding, decoding, playing, storing, organizing and reproducing music and comedy; providing access to non-downloadable software provided over global computer networks for creating entertainment and information profiles based on user selections of entertainment and information options or based on user specification of characteristics of entertainment and information, and recommending other entertainment and information based on such selections and specifications; providing an interactive web site featuring technology that enables users to enter, access, track, manage, monitor, and generate information and reports regarding sales of products and services; providing an interactive website featuring technology that allows users to consolidate and manage voice, data, video, and media content in the fields of music and radio; providing on-line network services that enable users to access, publish, and share text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works relating to entertainment, including, movies, television, audiovisual works, music, audio works, books, theatre, literary works, sporting events, recreational activities, leisure activities, tournaments, art, dance, musicals, exhibitions, sports instruction, clubs, radio, comedy, contests, visual works, games, gaming, festivals, museums, parks, cultural events, concerts, publishing, animation, current events, fashion, multimedia presentations, history, language, liberal arts, math, business, science, technology, hobbies, culture, sports, arts, psychology, and philosophy; providing search engines; providing search platforms to allow users to request and receive, content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works; providing temporary use of non-downloadable computer software that enables users to access and download computer software; providing temporary use of on-line non-downloadable cloud computing software for use in electronic storage of data; providing temporary use of on-line non-downloadable computer software for payment processing, authentication, management and tracking; providing temporary use of online non-downloadable computer software that generates customized recommendations based on user preferences; providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, games, social networks, text files and multimedia files; providing temporary use of on-line non-downloadable software development tools for the design and development of electronic games; providing temporary use of online non-downloadable software for use in collecting, analyzing, and providing data and information regarding electronic payment transactions; providing temporary use of on-line non-downloadable software, namely, software for parental control of access to obscene and inappropriate websites and digital content; providing temporary use of online non-downloadable software, namely, software for filtering internet searches that separates desired results from unwanted and inappropriate websites, and software that allows parental control of obscene and inappropriate websites, emails, and other digital content ; providing user authentication services in e-commerce transactions; software as a Service (SaaS) featuring software for use in connection with audio, video and digital content subscription service and one-time purchases of audio, video and digital content, namely, allowing users to pay for and create seller content; technical support in the nature of troubleshooting, namely, diagnosing computers set-top box, TV, and mobile phone hardware and software problems; technical support in the nature of troubleshooting, namely, diagnosing computer hardware and software problems; technical support services, namely, troubleshooting of computer game software problems; video and computer game design and development services; video game development services

(5) legal services; security services for the protection of property and individuals

(6) computer security services in the nature of providing authentication, issuance, validation and revocation of digital certificates; introduction, personal relationship, and social networking services; monitoring of data and computer systems and networks for security purposes; online social networking services; providing a social networking website for entertainment purposes; providing fraud detection services for electronic funds transfer, credit and debit card and electronic check transactions via a global computer network; providing information in the field of social networking; providing information on entertainment, movies and television shows via social networks; providing on-line computer databases and on-line searchable databases in the field of social networking; providing user authentication of electronic funds transfer, credit and debit card and electronic check transactions via a global computer network; providing user authentication services in e-commerce transactions; social networking services in the field of entertainment provided via a website and communications networks

on-board computer and computer application software for electric vehicle for electronically transmitting data on location of electric vehicle to data center; software and computer hardware, namely, sensors, computers, and wireless transceivers to provide connectivity within the vehicle, between vehicles, with cell phones, and with data centers, in addition to tactile, audible, and visual interfaces to interact with occupants of the vehicle; computer application software for smart phones, PDA devices and tablet computers, namely, software for use by drivers of vehicles and passengers for accessing, viewing, and interacting with and downloading navigational, traffic, weather and road condition information and entertainment content, namely, movies, music, photos and videos; wireless transmission and receiving equipment integrated into a motor vehicle to communicate wirelessly with remote computers and data center for tracking, monitoring and diagnosing vehicle maintenance and for providing information relating to motor vehicle maintenance to passengers; diagnostic apparatus consisting of sensors for use in testing vehicle function and in diagnosing vehicle electrical and mechanical problems, integrated into a motor vehicle; computer software for analyzing engine and vehicle for diagnosing the performance of motor and vehicle; navigational system, comprising electronic transmitters, receivers, circuitry, microprocessors, cellular telephone and computer software all for use in navigation and all integrated into a motor vehicle; computer application software for vehicles for travel route planning, driving directions, navigational information, traffic information, charging spots information, including information on occupancy of charging spot and type of plug of charging spot, customized mapping of locations; global positioning apparatus, namely, GPS receivers, hand held GPS receivers and computer application software for receiving driving directions, navigational information, charging spots information, customized mapping of location using real life traffic data provided by others; application software for providing access to navigation services as provided by others via internet; navigation and application software for vehicles for travel route planning using real life traffic data received from others; computer application software for remotely monitoring and controlling charging of battery of electric vehicle and A/C of electric vehicle via internet; computer application software for electric vehicle to measure, record and transmit data on energy consumption of electric vehicle and driver's performance; computer application software for vehicles for measuring, recording and transmitting data on driver's performance and data on energy consumption, receiving driving directions, navigational information and charging spots information, customized mapping of location as provided by others sent from data center and from external devices, in particular, smart phones, computers, for providing access to navigation services as provided by others via internet, for travel route planning using real life traffic data received from others, for controlling and indicating battery status, for remotely monitoring charge of battery of electronic vehicle via internet

SERVICES

(a)computerized data processing, namely, collecting and processing data on driver's performance, data on energy consumption of electronic vehicle; information services, namely, providing price-comparison information in the field of electricity and electricity charging fee; online retail store services and online wholesale store services or wholesale services for automobiles and electric automobiles, their parts and fittings, excluding their transportation; providing websites featuring consumer product information about electric automobiles and information pertaining to purchasing such automobiles; providing information about electric vehicles, namely, consumer product information and price comparison information; promoting the goods and services of others through the administration of incentive award programs involving the distribution of electric vehicle driving mileage credit; compilation and systemization of commercial information into computer databases; (

b) vehicle maintenance services, namely, providing electronic alerts notifying vehicle owners of need for vehicle maintenance; providing emergency roadside assistance service, namely, responding to calls for roadside for repairing and maintenance vehicle, repairing vehicle breakdown , retreading of tires, vulcanization of tires, emergency fuel supplying, starter battery and emergency battery supplying; providing information in the field of scheduled automotive maintenance appointments, automotive maintenance notifications; scheduling of routine maintenance appointments; providing information on vehicle condition, namely charging status, required full-charging time, unplug status, full-charge; providing information on vehicle condition, namely reminding the driver to plug-in one's vehicle for charging batteries; providing information regarding the location and availability of electricity charging points for vehicles; (c) vehicle maintenance services, namely, computer aided transmission of messages and images through electronic alerts via the internet notifying vehicle owners of timing for vehicle maintenance; telecommunication services, namely, electronic transmission of communication and data via e-mail and cellular text messages in the field of customized news and information, namely, navigational, traffic, weather and road information, vehicle diagnostic information, vehicle location and status information, and voice communication with passengers; providing vehicle communication services between vehicles , passengers, external operators, communications by computer terminals, telephone and e-mail, namely, providing information in the nature of navigational, traffic, weather and road condition information; providing information about communication networks by computer terminals; providing multiple user access to a computer network; providing user access to global positioning signals for navigation purposes; providing user access to the internet and to global computer networks; telematic assistance through connecting calls via a service and alarms center for transport and traffic with the purpose of intervention and help for persons and vehicles on the case of an accident , breakdown or theft; providing connectivity services and access to electronic communications networks, for transmission, download and reception of audio, video or multimedia content, namely, text, audio, still images, and video; providing access to digital music on the internet; telecommunications, namely receiving, coordinating and forwarding remote calls on vehicle conditions and emergency calls; transmission of information from motor vehicles, namely, wireless transmission of text messages, voice messages and audible alarms, relating to motor vehicles, namely, the location of motor vehicles, automatic collision notification, the status of components within motor vehicles, namely engines, motors, batteries and airbags; telecommunications services, namely, electronic wireless transmission of data for vehicle owners and drivers that assists in stolen vehicle tracking, namely the following data: the location of the vehicle, the direction of movement of the vehicle, the license plate number, the VIN (vehicle identification number) of the vehicle, the color of the vehicle, the make and model of the vehicle; computer aided transmission of signals for vehicle locking mechanism; telematic services for use in and with motor vehicles, namely, sending of results of energy monitoring services, namely, viewing and recording the timing and level of use and control of electricity used by selected devices, namely electric motors, air conditioner, on-board computers, displays and navigation unit via telematic in-vehicle wireless communication and sending results to vehicle owner wirelessly by e-mail and internet; communication by telematic systems for displaying road and driving related information; telecommunications, namely, electronic transfer of data, namely, general information on weather, movie listings, fuel prices, stock prices, flight information, travel destination information and road and traffic conditions, via a wireless communication network; telecommunication services, namely, electronic transmission of voice message services and data wireless digital messaging services; ; providing access to computer database for data on energy consumption of electronic vehicle and driver's performance via internet; telecommunication services, namely, electronic wireless transmission of data on driver's performance, namely, speed, driving radius, associated time of day and vehicle location information, through an online website that initiates alerts related to vehicle location and operation based on customized settings to users through e-mail ; providing information on vehicle condition, namely reminding the driver to plug-in one's vehicle for charging batteries; (d) GPS navigation services, namely, providing best forecast route guidance to drivers, navigation services via the internet, assistance with destination setting, voice routing and location assistance; Global Positioning System (GPS) navigation services, namely, providing best forecast route guidance to drivers, navigation services via the internet and assistance with destination setting; providing traffic information; satellite positioning services, namely providing precision vehicle positioning and vehicle navigation services; providing a computer database with travel route planning, navigation, traffic information, charging spots information, driving directions, electronic maps and destination information; information services, namely, providing traffic information, flight arrival and departure information, electricity distribution services for electric vehicle via mobile phone and the internet, battery charging services for electric vehicle via mobile phone and the internet; providing downloadable information to be used in a GPS navigation system, namely, traffic information, location of charging stations for electric vehicles, battery life drivable distance, state of battery and notifying when battery is fully charged or low, in-vehicle temperature, driving comfort, digital thermostats and self-timers, information about consumer crowdedness at an automobile recharging station for electric vehicles; providing computer facilities for electric vehicle power filling stations, electric vehicle power filling points, status of electric vehicle power filling points and new electric vehicle power filling points for the purpose of searching and locating such information; providing computer facilities for the electronic storage of information on electricity charging points, status of electricity charging point and new electricity charging points including storage of such information, this service should be provided through a GPS navigation system for the purpose of for searching and locating such information; travel organization and reservations, namely, provision of data for travel planning; providing computer facilities for the electronic storage of information on remaining power level in vehicles, for the purpose of for checking same, and indicating reachable area on current battery charge via mobile phone and the internet; receiving information about localization of electricity charging points for provision for others provided through a GPS navigation system

- White, grey, silver
- Red, pink, orange
- Yellow, gold
- Blue

Colour Claim

Colour is claimed as a feature of the trade-mark. The mark consists of the word 'AMSTEL' in black, which appears in the upper half of a divided inner circle with a white background. Below the word ' AMSTEL' is the word 'LIGHT' in white, which appears in the lower half of the divided circle with a red background. The word 'IMPORTED' appears in black above the word 'AMSTEL'. A gray ring encircles the divided inner circle. A gold ring with yellow highlighting encircles both the divided inner circle and the gray ring and contains the words 'AMSTEL LAGER' and 'BROUWERIJ B.V. AMSTERDAM HOLLAND' in black. The gold ring is further encircled by a black circle and a white circle. At the top of all of the circles and rings is a crest with two lions in blue and white. The crest has black, gold and white borders from the outside to the inside. Inside the white border are a blue background, the letter 'A' in gold and a gold plague with the word 'AMSTEL' in blue.

GOODS

(1) Beers

non-electric cables and wires of common metal, namely, guy wires, steel wire, non-electrical wires of common metal; ironmongery and small items of metal hardware, namely nuts, screws, nails, bolts; pipes and tubes of metal for use in plumbing systems, heating and cooling systems, ventilation systems, water distribution systems, drainage and irrigation systems; safes; ores; gutter pipes of metal; branching pipes of metal; fittings of metal for compressed air ducts; outdoor blinds of metal; cabanas of metal; fittings of metal for building; building panels of metal; buildings of metal, namely, barns, chalets, condominium buildings, conservatories, greenhouses, houses, office buildings, school buildings, sheds, stables; clips of metal for cables and pipes; metallic mounting brackets for industrial use; containers of metal for compressed gas or liquid air; fuel tanks of metal, hot water tanks of metal, septic tanks of metal; closures of metal for containers; sheets and plates of metal; floor tiles of metal; bolts of metal; letter boxes of metal; containers of metal for storage and transport; drainage pipes of metal; printer fittings of metal; penstock pipes of metal; pegs of metal; brackets of metal for building; ice moulds of metal; barrels of metal; taps for casks of metal; windows of metal; lintels of metal; window sills of metal; ironwork for windows; fittings of metal for windows; shutters of metal; window openers, non-electric; window frames of metal; window closers, non-electric; furnace fireguards of metal; sealing caps of metal for bottles; insect screens of metal; hooks of metal for clothes rails; framework of metal for building; metal trellis; knobs of metal; pot hooks of metal; towel dispensers, fixed, of metal; house numbers of metal, non-luminous; jalousies of metal; chimney cowls of metal; kegs of metal; drain traps [valves] of metal; water-pipe valves of metal; hooks of metal for clothes rails; baskets of metal; cask stands of metal; duckboards of metal; ducts of metal for ventilating and air conditioning installations; porches of metal [building]; wall claddings of metal [building]; fittings of metal for furniture; furniture casters of metal; mobile boarding stairs (metal -) for passengers; pipework of metal; elbows of metal for pipes; pipe muffs of metal; collars of metal for fastening pipes; junctions of metal for pipes; roller blinds of steel; containers of metal for storing acids; tubbing of metal; strap-hinges of metal; hinges of metal; signboards of metal; keys; spring locks; chimney shafts of metal; bolts of metal; screw nuts of metal; screw tops of metal for bottles; signalling panels, non-luminous and non-mechanical, of metal; chests of metal for food; poles of metal; pins [hardware]; containers of metal for liquid fuel; metallic divisions [partitions]; metal door trim; bolts (door -) of metal; door handles of metal; door bells of metal, non-electric; latch bars of metal; door openers and closers, non-electric; metal door frames; latches of metal; door closers, non electric; shims; cladding of metal for construction and building; sealing caps of metal; manifolds of metal for pipelines; water-pipes of metal; wall plugs of metal; motors and engines (except for land vehicles), namely, boat motors, engine motors, airplane engines, rocket engines; machine coupling and transmission components (except for land vehicles); agricultural implements (other than hand-operated), namely, plows, cultivators, lawnmowers, tractors; Incubators for eggs; automatic vending machines; trash compacting machines; oil separators, separators for the cleaning and purification of gases; aerated beverage-making machines; aerated water making machines; mineral water making machines; fittings for engine boilers; aerating pumps for aquaria; machines for drawing up beer using pressure; beer pumps; electric floor wax-polishing machines; brewing machines; bread cutting machines; ironing machines; rotary steam presses, portable, for fabrics; multi-purpose steam cleaners; can-openers, electric; pneumatic transporters; compressed air machines; compressed air engines; compressed air pumps; parts of machines, namely, pressure reducing sensors; parts of machines, namely, pressure regulating gauges; parts of machines, namely, pressure relief valves; cartridges for oil filtering machines, cartridges for water filtering machines; parts of machines, namely, electrically operated rotary brushes; generators of electricity; electromechanical beverage preparation machines, namely, beverage mixing machines, beverage cooling machines; electromechanical food preparation machines, namely, food chopping machines for commercial use, food peeling machines for commercial use, food slicing machines for commercial use; electromechanical machines for chemical industry, namely, calcining machines for chemical processing, dissolving machines for chemical processing, dust collecting machines for chemical processing; electric motors for machines; degreasing machines for motor vehicles; air filtering units for removing dust, smoke and allergens from the air; window openers, electric; window openers, hydraulic; window openers, pneumatic; window closers, electric; window closers, hydraulic; window closers, pneumatic; flues for engine boilers; parts of machines and engines, namely, air filters, gas filters, water filters, oil filters; oil filtering machines, gas filtering machines, water filtering machines, air filtering machines; bottle washing machines; meat choppers [machines]; belts for conveyors; conveyers; fruit presses, electric, for household purposes; pedal drives for sewing machines; bellows [parts of machines]; blowing machines for the compression, exhaustion and transport of gases; blowing engines, namely, engines for industrial machinery, engines for the generation of electricity; crankcases for machines, motors and engines; grating machines for vegetables; washing machines for crockery; parts of machines, namely, hanger bearings; gear boxes other than for land vehicles, namely, gear boxes for industrial machinery; rotary lamination smoothing press; hand-held tools, other than hand-operated, namely, power tools; lifting apparatus, namely, invalid lifts, wheelchair lifts, car lifts, forklifts; high pressure washers; hydraulic engines and motors; controls (hydraulic -) for machines, motors and engines; coffee grinders, other than hand-operated; parts of machines, namely, tubes for electrical boilers; scale collectors for machine boilers; glue guns, electric; kneading machines; compressors for refrigerators; compressed air machines; electric blenders; radiators [cooling] for motors and engines; couplings other than for land vehicles, namely, couplings for machines; handling apparatus for loading and unloading, namely, straps of metal for load handling, harnesses of metal for load handling, braces of metal for load handling; bearings as parts of machines; agricultural implements, not hand operated, namely, agricultural cultivators, agricultural tractors, harrows, ploughs, power tillers; agricultural machines, namely, reapers, tedders, threshing machines, hay binding machines, corn husking machines; filters for cleaning cooling air, for engines; air condensers; air pumps [garage installations]; mangles; industrial machines for preparing beverages, namely, aerated beverage-making machines, machines for preparing fruit beverages and fruit juices; machines for metal processing, namely, continuous metal casting machines, extruding machines for metals, metal forming machines, metal working machines; machines for making pasta; machines for processing plastics; parts of machines, namely, housings for rollers, housings for bearings; steam engine boilers; wire hoists, boat hoists, electric and pneumatic hoists; electric knives; stropping machines; blenders, electric, for household purposes; dairy machines, namely, milking machines, homogenizers, machines for the manufacture of dairy products; motors for machines; electric kitchen grinders, namely, coffee grinders, meat grinders, pepper grinders; mills for household purposes, other than hand-operated, namely, coffee mills, spice mills; flour mill machines; garbage disposal machines; sewing machines; parquet wax-polishers, electric; pepper mills other than hand-operated; electric machines and apparatus for polishing, namely, floor polishing machines, shoe polishing machines; filter presses for industrial machinery; heating pumps; machines, namely, pneumatic pumps, hydraulic pumps; lawn mowers; steam traps; electric cleaning machines and apparatus, namely, floor cleaning machines, carpet cleaning machines, steam cleaning machines; robots [machines]; electric carpet beaters; agitators, namely, washing machine agitators, laboratory stirrers; saw machines; air suction machines for industrial use; vacuum suction machines for industrial purposes ; food peeling machines for commercial use; sharpening machines, namely, knife sharpeners; shears, electric; wheel trueing machines; whisks, electric, for household purposes; machines, namely, chaff cutters, key cutting machines, paper cutting machines; shoe polishers, electric; electric machines for carpet shampooing; machines, namely, sieves for industrial purposes; parts of machines, namely, sieves for industrial purposes; de-aerators for feedwater; textile spinning machines; bottle rinsing machines; dust exhausting installations for cleaning purposes; vacuum cleaners; vacuum cleaner bags; vacuum cleaner hoses; vacuum cleaner attachments for disseminating perfumes and disinfectants; darning machines; knitting machines; generators of electricity; turbines other than for land vehicles, namely, turbines for generation of electricity, turbines for steam plants, wind turbines; door openers, electric; door openers, hydraulic; door openers, pneumatic; door closers, electric; door closers, hydraulic; door closers, pneumatic; electric food blenders; weeding machines; machines, namely, vacuum pumps; fans for motors and engines ; fan belts for motors and engines; automatic vending machines; bottle stoppering machines; electrically operated curtain drawing devices; transmissions for industrial machinery; heat exchangers [parts of machines]; washing machines; coin-operated washing machines; drain cocks; water heaters [parts of machines]; hydraulic turbines; looms; starter alternators, alternators for motor vehicles; wine presses; wind generators; windmills for power generation; wind turbines; hosiery looms; wringing machines for laundry; sausage machines; central vacuum cleaning installations; shredder machines for industrial use; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, circuits, generators, wires, microcircuits, circuit boards; apparatus for recording, transmission or reproduction of sound or images, namely, MP3 digital music players, tape recorders, disc recorders , videocassette recorders, DVD recorders, videocassette players, DVD players, stereo amplifiers, radio tuners, stereo tuners, radio receivers, stereo receivers, loudspeakers; pre-recorded compact discs, DVDs, video discs, optical discs, USB sticks containing computer applications for computers and mobile phones for using and maintaining kitchen appliances and devices, namely coffee machines, hobs, cooking ranges, ovens and hoods; Mechanisms for coin-operated apparatus; cash registers, calculating machines, namely calculators, adding machines; data processing equipment, namely, card punching and sorting machines, computer printers, circuit boards, computers; computer software, namely applications for mobile phones and computers for using and maintaining kitchen appliances and devices, namely coffee machines, hobs, cooking ranges, ovens and hoods; computer programs (cad/cam) recorded on software designed for use in construction and automated manufacturing; computer software for designing the layout of kitchens and bathrooms; fire extinguishers; aerometers; electric heat accumulators, electric steam accumulators; personal security alarms, gas alarms, vehicle alarms, burglar alarms; alcoholmeters; connections for electric lines; antennas for radio, antennas for television, parabolic antennas; breathing apparatus, except for artificial respiration, comprising oxygen tanks, breathing masks, medical tubing; breathing apparatus, except for artificial respiration; respiratory masks, other than for artificial respiration; respirators for filtering air; baby monitors; electric storage batteries; downloadable music files; video telephones; compact disc players; blank audio-video compact discs, audio-video compact discs containing music, audio-video compact discs containing computer games; computers; computer operating programs, recorded; computer screens; peripherals adapted for use with computers, namely, monitors, keyboards, scanners, printers, mice; computer games; software for creating computer games; computer keyboards; decompression chambers; distillation apparatus for scientific purposes, namely, distillers for chemically processing water, distillation units; stills for laboratory experiments; anti-theft warning apparatus, namely, anti-theft alarms for vehicles; blank floppy disks, pre-recorded floppy disks containing computer games; dosimeters; printers for computers; pressure measuring apparatus, namely, manometers, barometers; DVD players; electronic book readers; electric control panels for the remote control of industrial operations; electric locks, namely, electronic control systems for room locking systems, electronic lock assemblies; electrical cables; electronic display boards; downloadable electronic publications in the field of plumbing, downloadable electronic publications in the field of home renovations, downloadable electronic publications, namely user manuals; electronic pens for visual display units; televisions; telephones; remote controls for televisions, remote controls for stereos; fire extinguishers; fire alarms; cinematographic apparatus, namely, cinematographic cameras, cinematographic projectors, editing appliances for cinematographic films, projection screens for movie films; filters for respiratory masks; cameras; photocopiers; hands free kits for phones; downloadable image files, namely pictures; hydrometers; hygrometers; interfaces for computers, namely, computer interface boards, computer interface cards, network interface cards; ducting for electric cables; smart cards, namely, blank integrated circuit cards; smart cards, namely, integrated circuit electronic toll cards, integrated circuit hotel room key cards, integrated circuit identification cards; boiler control instruments, namely, electric control panels; warning devices, namely, electronic warning bells; headphones; loudspeakers; cable conduits, electric; data processing equipment, namely, bar code readers, chip card readers, memory card readers; light-emitting diodes [LED]; signs, luminous; air analysis apparatus, namely, particle counters for measuring air quality; pressure measuring apparatus, namely, manometers, pressure gauges; mouse [computer peripheral]; mouse mats; quantity indicators, namely, liquid level sensors, level gauges; measuring instruments, namely, accelerometers, altimeters, clinometers, densimeters, hydrometers; measuring spoons; rules [measuring instruments]; microphones; microprocessors; microscopes; cell phones; monitors [computer hardware]; teeth protectors; musical juke boxes; nautical apparatus and instruments, namely, compasses, ships' steering gears, manually-operated boat lifts ; notebook computers; optical apparatus and instruments, namely, optical amplifiers, optical condensers, optical lenses, optical reflectors, optical scanners; optical data carriers, namely, blank optical discs, pre-recorded optical discs featuring music; optical fibers; ozonisers [ozonators]; precision measuring apparatus, namely, planimeters, wattmeters, salinometers; precision laboratory balances; projectors; radios; smoke detectors; electric commutators; mechanical signs; encoded key cards; scales (lever -) [steelyards]; signalling panels, luminous or mechanical; smartphones; solar modules for electricity generation; computer memory devices, namely, computer memory expansion modules, memory card readers, RAM (random access memory) cards; sprinkler systems for fire protection; pitot tubes; plugs, sockets and other contacts [electric connections]; actinometers; bar code readers; tablet computers; temperature indicating apparatus, namely, temperature gauges, temperature sensors, thermosensitive temperature indicator strips; thermometers, not for medical purposes, namely, infra-red thermometers, meat thermometers, laser thermometers; temperature controlling apparatus, namely thermostats; video baby monitors; balancing apparatus, namely, laboratory scales and balances; weight measuring instruments, glass graduated scales, letter scales; heat regulating apparatus, namely, electrical control systems for heating and air conditioning systems, thermostats; water level indicators; marine depth finders; anemometers; frequency meters, flow meters, gas meters, decibel meters; time recording apparatus, namely, stop watches, clocks and watches; solar furnaces; sinks, other than furniture, sink vanities; water sterilisers, sterilisers for laboratory use, sterilisers for medical use; immersion heaters; plate warmers; solar thermal collectors [heating]; valves (thermostatic -) [parts of heating installations]; refrigerating appliances, namely, refrigerators, freezers; freezers; water closets; toilet bowls; toilet seats; flushing apparatus, namely, toilet flush valves, toilet flush levers, toilet tanks; toilets, portable; bath tub and shower partitions; filters for drinking water; desiccating apparatus, namely, desiccating units for compost toilets, desiccating units for drying fruits, desiccating units for removing water from the air in dehumidification systems; drying installations, namely, clothes dryers, electric hand dryers for washrooms; drip irrigation emitters [irrigation fittings]; ultraviolet ray lamps, not for medical purposes; washers for water taps; urinals [sanitary fixtures]; air conditioning fans; fans [parts of air-conditioning installations]; cooling evaporators, evaporators for air conditioners, evaporators for chemical processing; waffle irons, electric; heat pumps; heat regenerators; heat accumulators; heat exchangers, not parts of machines; hot water bottles; heated display cabinets; water heaters; water heating installations, namely, feed water heaters for industrial purposes, hot water heaters; wash-hand basins [parts of sanitary installations]; laundry room boilers; laundry dryers, electric; water softeners; water filtering apparatus, namely, filters for drinking water, water filtering units for industrial use; toilet tanks; water coolers; water distribution installations, namely, water pipes, water hoses, water valves, water hose connectors, water pipe connectors, water taps, and water tap adaptors; water purification installations, namely, tap-water purifiers, electric water purifiers for industrial use; water purification machines; water sterilizers; water supply installations, namely, water-pipe valves of metal, pressure water tanks, mixer taps for water pipes, industrial water tanks; water intake apparatus, namely, faucets, water supply pipes, water storage reservoirs and tanks; whirlpool-jet apparatus, namely, whirlpool baths and bath fittings; central heating radiators; fumigation apparatus, not for medical purposes, namely, hand-pumped sprayers for applying pesticides, automatic sprayers for applying pesticides; lamp reflectors; regulating accessories for gas pipes, namely, pressure gauges, level gauges; safety accessories for gas pipes, namely, pressure sensors, safety valves; regulating accessories for water pipes, namely, pressure indicator plugs for valves, check valves, temperature gauges; chambers (clean -) [sanitary installations]; boiler pipes [tubes] for heating installations; taps [cocks, spigots] faucets for pipes; electric coils, ignition coils, electromagnetic coils; coffee roasters, fruit roasters, malt roasters; sauna bath installations; pressure cooking saucepans, electric; safety lamps; safety accessories, namely, flashing safety lights for traffic cones, reflective safety vests, magnetic mount flashing safety lights for vehicles, asbestos safety curtains; bath tubs for sitz baths; solar modules for heat generation; gas lighters; gas burners; gas boilers; gas condensers, other than parts of machines; gas lamps; gas-scrubbers; deep freezing apparatus, namely, freezers; refrigerating chests; steam facial apparatus [saunas]; beverage cooling apparatus, namely, refrigerators, portable beverage coolers; electric light bulbs; roasting devices, namely, coffee roasters, roasting dishes, rotisseries; rotisseries; roasting spits; hair driers [dryers]; taps [faucets]; handle grips for showers; hand drying apparatus for washrooms; hot air apparatus, namely, portable electric space heaters; blankets, electric, not for medical purposes; electric heating apparatus, namely, electric radiators for heating buildings, electrically heated carpets, portable electric heaters; heating boilers; pads [cushions] (heating -), electric, not for medical purposes; heating installations, namely, central heating radiators, electrical control systems for heating and air conditioning systems, heat accumulators, heat pumps, heat treating furnaces; radiator caps; hot air ovens; space heaters; apparatus for heating, namely, heaters for baths, heating boilers, heating furnaces for industrial purposes, immersion heaters, solar water heaters; fireplaces; ionization apparatus for the treatment of air or water; electric yoghurt makers; electric coffee percolators; coffee roasters; nuclear reactors; air conditioning installations; air conditioners; cooking apparatus, namely, cooking grills, cookware, electric cooking ovens for household purposes, electric cooking pots and pans, electric cooking stoves for household purposes; steam generators, other than parts of machines; ceiling lights; disinfectant apparatus, namely, sterilizers for waste treatment, sterilizers for water treatment, water treatment chlorinator units; disinfectant distributors for toilets; deodorising apparatus, not for personal use, namely, electric air deodorizers, electric dispensers for air fresheners and deodorizers; stills; fruit roasters; roasting jacks; pressure water tanks; baths; heads for showers; ice machines and ice apparatus, namely, electric ice crushers, ice chests, ice cube makers; ice chests; fans (electric -) for personal use; electric kettles; aquarium filtration apparatus; curling lamps; electric deep fryers; electric or non-electric foot warmers; gas lighter; apparatus for lighting, namely, ceiling lights, light dimmers, light diodes, night lights, beacon lights; portable and installed gas-fired unit heaters for the purpose of heating rooms and dwellings; steam generating apparatus, namely, steam cookers, steam generators; cooking appliances, namely, conventional ovens, toaster ovens, toasters, stoves; cooling apparatus, namely, air conditioners, refrigerators, water coolers, wine coolers, ice-makers, ice boxes; apparatus for ventilating, namely, ventilating fans for commercial and industrial use, ducts of metal for ventilating installations, oven ventilating hoods; apparatus for supplying water, namely, electric water purifiers for household purposes, filters for drinking water, industrial water tanks, mixer taps for water pipes, tap water faucets; installations for sanitary purposes, namely, water filtration units, water treatment chlorinator units, water filtering units for industrial use; kitchen sinks; sinks; purification installations for sewage, namely, sterilizers for waste treatment, mineral filtering materials for the sewage treatment industry; extractor hoods for kitchens; hot air bath fittings; hydromassage bath apparatus; apparatus for dehydrating food waste; ash pits for furnaces; expansion tanks for central heating installations; heaters, electric, for feeding bottles; baking ovens; bath fittings; heaters for baths; bath plumbing fixtures; barbecues; lamps; ventilation hoods; ventilation hoods for laboratories; bed warmers; bidets; tanning apparatus [sun beds]; bread baking machines; toasters; pressure cookers ; autoclaves; installations for cooking, namely, cooking ranges, microwave ovens, convection ovens ; electric cooking utensils; cooking rings; steam cookers, slow cookers, electric rice cookers; cooling installations for liquids, namely, beverage cooling and ice dispensing machines, portable beverage coolers; chilling machines, namely, wine refrigerators; refrigerating containers, namely, refrigerating storage containers, refrigerating bottles, refrigerating cabinets; cold storage rooms; refrigerating cabinets; refrigerating display cabinets; electric lamps; lava stones for barbecue grills; water-pipes for sanitary installations; light-emitting diodes (LED lighting apparatus); luminous tubes for lighting; light diffusers; humidifiers for central heating radiators; air heating apparatus, namely, central heating radiators, electric heaters for commercial use, electric radiant heaters, and electric space heaters; filters for air conditioning; air filtering installations, namely, air filtering units for removing dust, smoke and allergens from the air, filters for air conditioners; air cooling apparatus, namely, air conditioners; air purification installations, namely, air purifying units; germicidal lamps for purifying air; baths (spa -) [vessels]; air sterilisers; air driers for industrial use, air driers for household use; ventilating installations, namely, ventilation ducts, ventilation hoods, ventilating louvers, ventilating fans; air conditioners for vehicles; ventilation installations and apparatus, namely, air conditioners; desalination plants; microwave ovens; microwave ovens for industrial purposes; mixer taps for water pipes; anti-splash tap nozzles; level controlling valves in tanks; stoves; fire bars; oil-scrubbers; bedroom furniture, dining room furniture, living room furniture, kitchen furniture, patio furniture; mirrors (silvered glass); picture frames; tea trolleys; display boards ; benches [furniture]; non-metallic fittings for buildings, namely, hinges, screws, bolts; reservoirs, not of metal nor of masonry, namely, plastic reservoirs; non-metallic closures for containers, namely, plastic closures for containers; office furniture; non-metallic containers, namely, plastic containers for storage, plastic containers for transport; decorations of plastic for foodstuffs; boxes of wood or plastic; printer fittings, not of metal; dowels, not of metal; non-metallic fixing plugs, namely, plastic hardware anchors; magazine racks, shoe racks, wine racks; non-metallic barrels; taps for casks, not of metal; window fittings, not of metal; freestanding partitions [furniture]; hooks, not of metal, for clothes rails; curtain hooks; curtain holders, not of textile material; plate racks; mirrors (Hand-held -) [toilet mirrors]; towel closets [furniture]; towel dispensers, fixed, not of metal; chests, not of metal; high chairs for babies; drain traps (valves) of plastic; water-pipe valves of plastic; clothes hooks, not of metal; coatstands; knobs, not of metal; hampers [baskets]; baskets, non-metallic; cask stands, not of metal; bed bases; bedroom furniture of metal, dining room furniture of metal, living room furniture of metal, kitchen furniture of metal, patio furniture of metal; furniture fittings, not of metal; furniture partitions of wood; rollers [casters], not of metal; doors for furniture; boarding stairs, not of metal, mobile, for passengers; screens [furniture]; placards of wood or plastics; blinds (roller blinds) of wood or bamboo; hinges, not of metal; signboards of wood or plastics; umbrella stands; locks, other than electric, not of metal, namely, bicycle locks; cupboards; screws, not of metal; non-metallic hardware nuts; vice benches, not of metal; screw tops, not of metal, for bottles; meat chests, not of metal; mirror tiles; lockers; mats, removable, for sinks; flower-pot pedestals; concrete poles, plastic poles; steps [ladders], not of metal; chairs; containers, not of metal, for liquid fuel; table tops; dressing tables; barrel hoops, not of metal; transport pallets, not of metal; door fittings, not of metal; latches, not of metal; door handles, not of metal; doorbells, not of metal, non-electric; knockers (door -) of non-metallic materials; latches, not of metal; non-metallic valves, other than parts of machines, namely, safety valves, pressure relief valves, automatic valves; packaging containers of plastic; sealing caps, not of metal; glass (silvered -) [mirrors]; support rails for curtains; baby changing platforms; dressing tables; changing mats; household or kitchen utensils and containers, namely, cooking utensils, beverage containers, food storage containers, garbage containers; hair combs and abrasive sponges for kitchen use, all-purpose scouring sponges, bath sponges; brushes, except paint brushes, namely, basting brushes, clothes brushes, cosmetic brushes, nail brushes, hair brushes, lint brushes; brush-making materials; articles for cleaning purposes, namely, mops, brooms, dust pans; steelwool; unworked or semi-worked glass (except glass used in building); glassware, namely, table glassware, decorative figurine glassware, porcelain bowls, porcelain pitchers, porcelain gravy boats, porcelain serving platters, porcelain serving plates, porcelain dishes and earthenware; dustbins; make-up removing appliances; non-electric dusting apparatus, namely, dusters, dusting cloths, feather dusters; aerosol dispensers for household use, not for medical purposes; cinder sifters for household purposes; heaters for feeding bottles, non-electric; baking mats; mugs; receptacles, namely, wash basins; brooms; window-boxes; flower pots; scrubbing brushes; baking pans, frying pans; metal pins for cooking; bread boards; bread bins; bread baskets, domestic; ironing boards; toilet brushes; hot pots, not electrically heated; closures for pot lids; buckets; electric tooth brushes (except parts of machines); electric hair combs; dripping pans; strainers for household purposes; bottles; bottle openers, electric and non-electric; ice cube molds [moulds]; non-electric frying pans; fruit presses (non-electric), for household purposes; watering cans; glass incorporating fine electrical conductors; boxes of glass; griddles [cooking utensils]; gridiron supports; towel holders; gloves for household purposes; electric devices for attracting and killing insects; heat-insulated containers for beverages, heat-insulated containers for food; insulating flasks; heat-insulated containers for beverages; thermally insulated containers for food; coffee filters, non-electric; coffeepots, non-electric; coffee grinders, hand-operated; coffee percolators, non-electric; coffee services [tableware]; ceramics for household purposes, namely, ceramic mugs, ceramic jugs, ceramic tiles; cookery molds [moulds]; cauldrons; cooking pots; cooking utensils, non-electric; baskets for domestic use; cosmetic utensils; refrigerating bottles; isothermic bags; blenders, non-electric, for household purposes; furniture dusters; non-electric kitchen grinders, namely, coffee grinders, pepper grinders, meat grinders; hand-operated mills for domestic purposes, namely pepper mills, salt mills, spice mills, coffee mills; water apparatus for cleaning teeth and gums, namely, oral irrigators; noodle machines, hand-operated; dispensers for paper towels; waste paper baskets; non-electric apparatus for wax-polishing, namely, polishing cloths, polishing gloves; plates to prevent milk boiling over; polishing apparatus and machines for household purposes, namely, floor polishing machines; polishing gloves; polishing materials, namely, polishing paper, polishing cloths, polishing stones; hand-operated cleaning instruments, namely, handheld vacuum cleaners, cloths, rags, mitts; pads for cleaning; wiping cloths; perfume burners; non-electric egg beaters; metal scouring pads; abrasive pads for kitchen purposes; cutting boards for the kitchen; hot pots, not electrically heated; sponges for household purposes; sponge holders; soap holders; soap boxes; soap dispensers; cooking strainers; nozzles for watering hose; dishwashing brushes; steel wool for cleaning; towel rails; rings for towels; dusting cloths [rags]; trays for domestic purposes; services [dishes]; toilet utensils; toilet paper dispensers; cooking pots; oven mitts; coldboxes (portable -), non-electric; non-electric portable coldboxes; waffle irons, non-electric; washing boards; kettles, non-electric

GOODS

Class 09
Computer software for database integration; computer software for creating searchable databases of information and data namely information and data on rainfall, soil nutrient levels, livestock breeding, stock health, stock health treatment, carcass grade, stock reconciliation, stock movement , stock weight, wool grade and wool weight, milk grade, milk volumes and milk solids, velvet grade and velvet weight, pasture cover and stock rotation, stock feed, crop, tree and plant health, maintenance, weight, growth, grade, cultivation and harvesting; computer software for the collection, editing, organizing, modification, analysing, monitoring, book marking, transmission, storage and sharing of data and information, namely information and data on rainfall, soil nutrient levels, livestock breeding, stock health, stock health treatment, carcass grade, stock reconciliation, stock movement, stock weight, wool grade and wool weight, milk grade, milk volumes and milk solids, velvet grade and velvet weight, pasture cover and stock rotation, stock feed, crop, tree and plant health, maintenance, weight, growth, grade, cultivation and harvesting; computer software for use in the field of farming having calendar, map, stock tracking, stock management, land management, farm planning tools, farm production calculators, and reminder functions.

SERVICES

Class 41

(1) Education services, namely, providing classes, seminars, workshops, tutoring, on-line resources and mentoring in the field of farming, agriculture, horticulture, forestry, aquaculture, agronomy and farming and forestry management; education services, namely, providing classes, seminars, workshops, tutoring, on-line resources, and mentoring in the use of computer software for use in the field of farming, agriculture, horticulture, forestry, aquaculture, agronomy and farming and forestry management.

Class 42

(2) Agricultural research; horticultural research; research in the field of farming; research in the field of environmental protection; research in the field of plant breeding; research on agriculture, livestock breeding or fisheries.

Class 44

(3) Providing information on agriculture, horticulture and forestry; horticulture services; consultancy services in the fields of agriculture, horticulture and forestry; providing information in the fields of animal breeding, selection of the animals, health and nutrition; stud and breeding services for cattle , sheep, deer and goats; animal livestock breeding; pest control for agriculture, horticulture or forestry.

ARMID

Foreign Character Translation/Transliteration
As per the applicant, the term ARMID has no meaning.

GOODS

Class 09
Simulation software for digital calculators used in the design of industrial, residential, and structural paving made of fibre-reinforced concrete; compiler software, namely computer software for the automation of data storage; computer-assisted engineering software for the design of industrial, residential, and structural paving made of fibre-reinforced concrete; industrial automation software, namely computer programs (CAD/CAM) recorded on software carriers and designed for use in computer-assisted construction and manufacturing; computer application software, namely computer software for assisting software developers in the creation of program code for use in multiple application programs; data compression software, namely file compression utility programs ; data processing software, namely image processing software, digital image processing software, word processing software; software for controlling industrial operations, namely computer software for controlling and operating machinery used in the construction of concrete forms, structures, and slabs; database management software; computer software for reading telemetry apparatus; image, graphic, and word processing software; computer software for creating databases enabling the retrieval of information and data.

SERVICES

Class 37

(1) Construction, namely civil engineering consulting; construction of building parts; construction of flooring, namely floors; construction of civil engineering structures through concrete installations; construction of civil engineering structures through concrete form work; construction of civil engineering structures through the pouring of concrete; pavement and paving; preparation of soils for coating and covering; civil construction services; construction services for industrial purposes, namely building construction; roadway surfacing; earthmoving; application of surface coatings; building of reinforced concrete structures by using sliding and climbing forms, namely reinforced concrete framework; floor maintenance and repair; laying of toppings; laying of concrete coverings; laying of floor coverings; concrete repair; repair and maintenance of measuring machines and instruments, namely surveying instruments, level measuring machines for surveying, levelling rods for surveying; repair and maintenance of testing apparatus and instruments, namely concrete testing machines; consulting services related to coating projects, namely consulting services for the construction of concrete forms, structures, and slabs; soil erosion control services; floor covering services.

Class 42

(2) Programming of data evaluation and calculation software; development and testing of computer software, algorithms, and calculation methods; design and development of data evaluation and calculation software; software engineering services; software customization services; updating of computer software; rental of computer software; research and development of computer software; installation, maintenance, and repair of computer software; development, programming, and implementation of computer software; creation, maintenance, handling, and adaptation of computer software; computer software consulting services; computer software calibration services; computer software maintenance and support services; design of products and models, namely templates and prototypes, new products, industrial products, and industrial installations, namely design of concrete forms, structures, and slabs; design regarding construction, namely drafting of construction plans; engineering design and consulting and design of engineering projects, namely planning of buildings and building infrastructure, planning and organization of construction projects, urban planning research; floor covering design; computer-assisted graphic design, namely industrial design; design of measurement systems, namely creation of computer programs for controlling the automatic measurement of concrete forms, structures, and slabs; design of building and engineering systems, namely design of computer programs for designing concrete forms, structures, and slabs; civil engineering services for structural design, namely concrete forms, structures, and slabs; design of devices for three-dimensional viewing; architecture, namely civil engineering design services; design engineering consulting services; computer-assisted design services with respect to construction projects; computer-assisted design services with respect to engineering and industrial design.

Index Headings
GVTV GONE VIRAL

Image Description (Vienna)

- Personified objects, combinations of objects representing a personage
- Armillary spheres, planetaria, astronomic orbits, atomic models, molecular models
- Atomic models, molecular models, representations of human, animal or vegetal cells
- Eyes -- Note: Including eyes with or without eyebrows and eyes with tears.
- Lips, mouths, tongues
- Spheres
- Red, pink, orange
- Yellow, gold
- Black
- White, grey, silver

Trademark Description
The design element is a sphere containing a mouth with a tongue and two eyes. The sphere has fourteen thin lines which protrude from it, with smaller spheres attached to the end of these lines. The words are in special form as follows: the letters GVTV are in uppercase letters, and the words Gone Viral are in sentence case letters, and appear underneath the letters GVTV. The words appear stacked in the manner described to the right of the design.

Colour Claim
Colour is claimed as a feature of the trade-mark. The design is red on the right hand side and yellow on the left hand side and all outlined in black, except the eyes are white and the tongue is red. The letters GVTV are coloured yellow on the top and orange on the bottom and are all outlined in black. The words Gone Viral are in black.
